

NEARLY 100 DIE IN GULF STORM

Death Toll Increases As News Dwindles From Gulf Cities Overwhelmed by Tidal Wave.

GALVESTON AGAIN ALMOST WIPED FROM THE MAP BY BIG HURRICANE

Wireless Flash From U. S. Transport off Galveston Says 300 Feet of Sea Wall is Carried Out and Loss is Enormous—Texas City Suffers Heavily—U. S. Army Camp Overwhelmed by Tidal Wave and Many Are Drowned—Galveston Still Cut Off From the World.

By Associated Press. Dallas, Texas, August 18.—Nearly a hundred lives were lost and millions of dollars worth of property destroyed in the West Indian hurricane that swept the Texas coast yesterday and the day before, latest reports indicate.

Up to noon no definite news concerning loss of life had been received from Galveston, which city is believed to have been hardest hit.

A report that bodies of eight women, washed ashore at Texas City, were believed to have come from Galveston, gave the only detailed information of loss of life in the latter city.

The damage to cotton will be from 15 to 25 per cent of the entire crop of central Texas, and will cost the growers millions of dollars, according to estimates based on reports received in Austin from towns in central Texas.

Three lives were lost at Seabrook and the town practically annihilated, according to reports received here.

A refugee who escaped from Kemah, a coast town, said only one house was left standing in that place.

Galveston, Texas, via wireless from the U. S. transport Buford, August 18.—There is considerable suffering in this city. The water system, lighting system, gas and street car systems are out of commission. There is no drinking water in the city.

Three hundred feet of the causeway has been destroyed.

All officers, classified employees and listed men and their families are safe. (This refers to Garrison at Fort Crockett).

Houston, Texas, via Temple and telephone to Dallas, August 18.—The Houston Chronicle prints the following interview with J. R. Montgomery, a Houston correspondent of the Galveston News, who got as far as Virginia Point, the north end of the causeway, Wednesday, and viewed the wrecked city of Galveston:

"I am confident the number of dead in Galveston is large.

"I could not see an elevator on the port side of the city, and my opinion is that the number of buildings destroyed will run into the thousands.

"I believe the property loss will be greater than that of 1900."

He made his way to the drawbridge on the Galveston causeway in an auto, and owing to the fact that this structure was swept away he was forced to return to Houston.

"We encountered indescribable conditions," he said.

"Bridges were washed out and once we ran our auto over a railroad bridge."

He said they saw thousands of bales of cotton on the prairies, all the way, that were washed from Galveston docks.

Dallas, Texas, August 18.—More than three score lives were lost and property damage estimated at millions of dollars was caused by the great tropical storm which swept the Gulf coast of Texas yesterday and the day before, according to information received here today.

Houston, Galveston and Beaumont remain practically cut off from the outside world, but wire companies expected to be able to communicate with all three places before night.

Although rain was still falling in some places, the wind had lessened in velocity.

Copies of yesterday's Houston newspapers, received today, told of the death of twelve soldiers and thirty or forty civilians at Texas City, and said six persons were drowned at Laporte, 25 miles from Houston.

A late edition of the Houston Post says eighteen lives were lost at Texas City and \$400,000 damage done.

Eight men are reported dead near Morgan's Point.

Conflicting reports as to damage to property in Houston were received. Some placed it at \$1,000,000; some at \$5,000,000.

All reports today indicated that the force of the storm had been spent.

State officials announced they were prepared to take the situation in hand and extend help.

Thousands of residents of the fruit and truck farm districts, 100 miles west of Galveston, are sufferers, according to reports, and it was feared considerable loss of life may have resulted.

Houston, Texas, August 17, via mail to Dallas, August 18.—Only one person, a negro, lost his life, but Houston sustained a loss estimated at from \$2,000,000 to \$5,000,000, as a result of the storm.

Not a single business house or residence escaped damage.

The wind attained a velocity of 90 miles an hour.

Beaumont, Texas, August 18.—Three men and one woman killed, almost the entire population of Port Arthur made homeless and property damage estimated at more than \$200,000, constitutes the toll of the tropical storm Monday night.

Washington, August 18.—War Department dispatches sent from Texas City to Houston by wireless this morning, said the United States army camp there had been destroyed by a tidal wave and high tide which covered the city with three to five feet of water.

Creepers were searching for the dead and caring for the injured.

The storm still raged this morning.

UPHOLDS MURDERERS OF LEO FRANK

By Associated Press. San Francisco, August 18.—J. G. Woodward, mayor of Atlanta, Ga., in an address here last night, declared that Leo M. Frank, who was lynched Monday night, suffered the "just penalty for an unspeakable crime."

The Atlanta mayor, at the same time warned former Governor John M. Slaton, now in California, not to return to Georgia.

The address was made at a banquet of the California State Assessors' Association.

Little or no applause greeted his remarks, although he was listened to with close attention.

In the course of his speech Mayor Woodward said:

"People throughout the United States have obtained their ideas of the Frank case from a poisoned and subsidized press and press reports."

READY FOR WAR CABINET

By Associated Press. London, August 18.—Ex-Premier Venizelos today notified King Constantine of his readiness to form a new Grecian cabinet in succession to the Gounaris ministry which resigned at the opening of the Grecian parliament yesterday, according to a dispatch from Athens.

FRANCE IS CALLING IN GOLD SUPPLY

By Associated Press. Paris, August 18.—One hundred and eighteen millions of francs in gold was exchanged for bank bills at the Bank of France, its branches and other establishments authorized to receive it in the last few weeks. To provoke this influx of gold no more was required than the statement of the Minister of Finance that French citizens could show their patriotism by helping increase the gold

RUSS FORTRESS OF KOVNO FALLS

400 CANNON AND VAST AMOUNT OF WAR MUNITIONS TAKEN WITH TROOPS

Advance Upon Petrograd Now Almost Certain—Russ Driven Back Into Brest Litovsk and Flank Seriously Threatened—Mackensen Drives Russ Across Bug—Vilna and Bialystok to be Evacuated—British Report Gain on Gallipoli Peninsula.

By Associated Press. Berlin, August 18.—The following announcement was made here officially today:

"The fortress of Kovno, together with all the forts and an amount of war material which has not been determined, has been in German hands since last night.

"More than 400 cannon were taken.

"The fortress was captured by storm, in spite of the most tenacious resistance by the Russians."

The capture of Kovno raises the question whether the Russians will be able to hold the Brest Litovsk line or whether they will again be compelled to make a general retreat. German troops are but 13 miles from the Brest Litovsk line. Novno is 550 miles southwest of Petrograd, the possibility of an advance against which is now being considered in Russia and England.

Von Hindenburg personally took command of the army attacking Kovno and the selection of German's national hero for this task indicated the importance attached to it by the German general staff.

Military experts have agreed that the loss of the fortress of Kovno would be a serious blow to the Russians.

The critic of the London Times says:

"If the enemy succeeds in reducing Kovno, and is thereby able to cross the Niemen, he will be in the rear of the Russian line north of Sventy, and with the junction of the two wings of Field Marshal von Hindenburg's army the positions of the Russian flank will be very difficult."

Berlin, August 18.—Two more forts at Novo-Georgievsk have been captured and Field Marshal von Mackensen has driven the Russians across the Bug and into the outer positions of Brest Litovsk, it was announced today.

Petrograd, August 18.—German aeroplanes are persistently bombarding the city of Vilna, about 50 miles east of Kovno.

The possibility of the capture of Vilna by the Germans is forseen in Petrograd, and operations preliminary to its evacuation are in progress.

Preparations for the evacuation of Bialystok continue.

The town is in darkness at night, on account of attacks by German aircraft.

London, August 18.—A further advance of 500 yards, after a heavy engagement, by the allied troops, on the Gallipoli peninsula, is announced in a message from General Hamilton, the British expeditionary commander-in-chief, given out here today.

MOB POSTCARDS DENIED MAILS

By Associated Press. Atlanta, Ga., August 18.—Postcard pictures of Leo Frank's body, hanging from a tree, were barred from the mails by local postoffice authorities today.

AFTER MEN WHO HUNG LEO FRANK

By Associated Press. Atlanta, Ga., August 18.—All the legal machinery available to Governor Harris will be put into motion to apprehend the men who lynched Leo M. Frank at Marietta yesterday, Governor Harris announced today.

The body of Frank today is enroute to Brooklyn, N. Y. Mrs. Frank was composed and bearing up well.

ZEPS. RAID LONDON

London, August 18.—The outskirts of London were raided last night by Zeppelins. Several persons were killed. The damage to property was not important.

Ten persons were killed and 36 injured in the raid. One Zeppelin is believed to have been hit. The raid was over the eastern counties of England.

A dispatch from Amsterdam had reported that four Zeppelins were sighted off the Dutch coast speeding towards England.

Two women and a child were among the killed and of the injured eighteen were women and two children.

REFERENDUM ON M'DERMOTT BILL

By Associated Press. Columbus, August 18.—There is to be a referendum on the McDermott liquor license bill and the law firm of McGhee, McGhee, Davis & Boulger have been engaged to prepare for it. It is understood that members of the county licensing boards are most active in the project.

Petitions with 70,000 signatures must be filed before September first. The filing of petitions will hold up the bill until the November election.

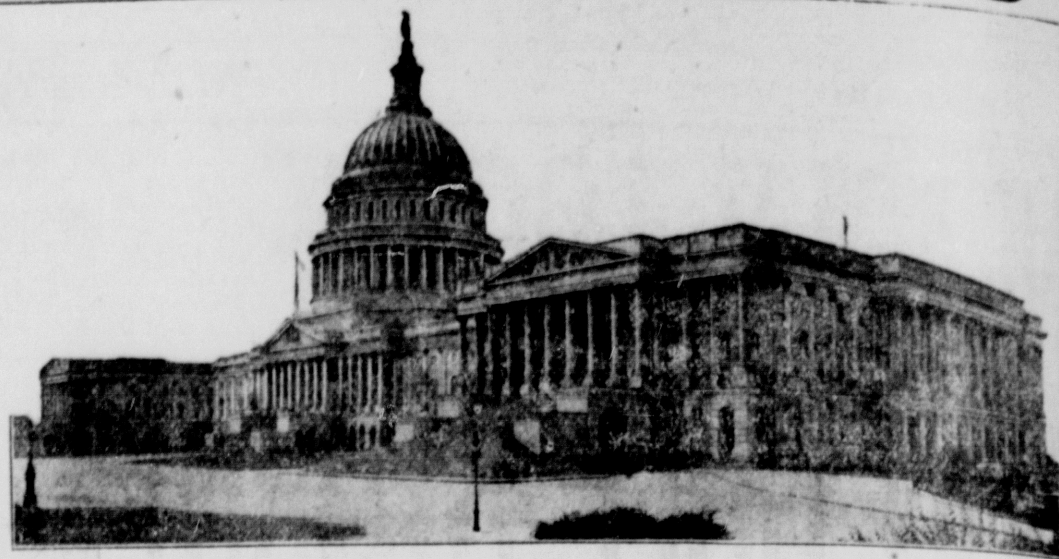

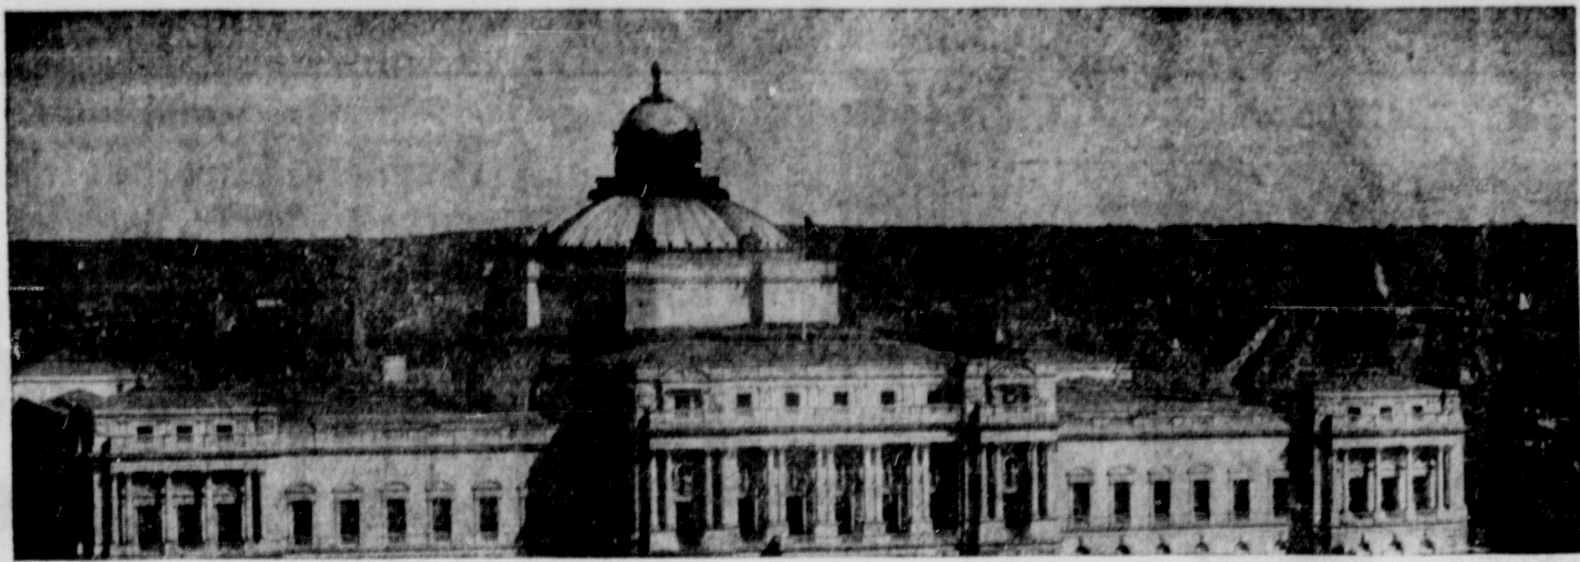

ARNOLD HAS ASPIRATIONS

ANNOUNCEMENT

The accompanying announcement sent out to customers of the Dahl-Millikan Branch of the Midland Grocery Company heralds a summer outing without precedent as a complimentary trip.

It would be impossible to schedule a trip offering greater opportunities for sight seeing; of greater interest and pleasure, and it will be conducted over one of the principal trunk lines, on solid trains of standard Pullmans, through a wonderfully beautiful scenic route.

It is a trip which, taken individually, would necessitate the spending of a large amount of money without securing the special service, attention and privileges that are always given to the outings conducted under the Dahl-Millikan management.

This progressive grocery company contemplates running this trip for the benefit of their customers, their families, clerks, etc., practically along the same plan and proposition of the past twenty years. It is purely an advertising proposition given complimentary to their customers for their push and preference in putting to the front Dahl-Millikan lines—lines which have established a most enviable reputation as unequalled in quality, low price and prompt service.

But withal the splendid success of past outings the twentieth annual outing stands in a class by itself in the extent and perfection of plans. Everybody wants to see Washington, D. C., and never has the capital attained to such beauty as during the past few years.

The quaintness of the Quaker City is rapidly passing and those who want to see Philadelphia before she loses all of her earlier historic interest in the metropolitan development of the great city, must do so quickly.

Not only does this trip include these two leading cities of interest, but it reaches a climax at Atlantic City, the world's premier pleasure and health resort, a city of hotels, cottages, shops, providing endless facilities for fishing, recreation and amusement, and the most perfect bathing beach on the Atlantic coast.

There is no one who does not long to visit Atlantic City and take part in the gay promenade on the famous "Boardwalk."

The Boardwalk extends eight miles

on the beach with a practically unobstructed ocean view. It is a substantial structure, erected from ten to fifteen feet above the strand, upon massive pilings, at a cost of half a million dollars. Every evening it is brilliantly lighted and during the summer season the gayest place in the United States.

Along the Boardwalk are theaters, concerts by noted bands, bowling, dancing and many amusements doubly enjoyed on the six great ocean piers extending seaward—in all the world the greatest series of piers devoted exclusively to recreation.

Endless diversion awaits the visitor in Atlantic City aside from the wonder of the ocean and the delight of ocean bathing.

Mr. Wm. M. Campbell, general manager of the Dahl-Millikan Branch, goes to Atlantic City next week to complete arrangements for the entertainment of the guests at leading hotels on the Boardwalk.

These hotels have their own farms from which are supplied poultry, butter and milk.

Mr. Campbell is giving his personal attention to all the trip plans and nothing will be overlooked in giving the company's guests the very best of everything.

The outing will be held the latter part of June or early in July, 1916. Leaving this section on fast trains early in the afternoon the party will be in Washington, D. C. before breakfast, giving ample time to see the Capitol City and yet leave in the afternoon in time to reach Atlantic City for evening dinner.

Sight seeing cars will be waiting in Washington and experienced guides will show the party the city.

A similar sight seeing trip will be enjoyed in Philadelphia, probably en-route home.

Special solid vestibuled trains of ten coaches each will accommodate comfortably 450 people. The company will run as many trains as the bookings will require. From present indications five trains will be required.

Arrangements will be made to have these trains stop at convenient

places in the territory, starting probably at Washington C. H., Blanchesville, Jackson, Springfield and Circleville.

The Pullman cars will be fully equipped with dining service and a feature, which is secured only through the influence of the Dahl-Millikan management, is the serving on small tables in each section of the regular elaborate Pullman dinner. Extra waiters will be installed for this purpose and the elimination of the tiresome waits in line for the diner will add immensely to the pleasure of the trip.

A trip like this offers the opportunity of a lifetime and it is a safe prophecy that every Dahl-Millikan patron who can possibly take advantage of a complimentary outing on a scale of such magnitude as planned for next year will do so.

The Lynching of Frank

The lynching of Leo M. Frank, Georgia's noted life-term prisoner, has horrified the people of the United States in its utter defiance of law and the inhuman frenzy of the act.

It is a disgrace to the state of Georgia—an irradicable stain upon the pages of her history.

After the authorities had made final disposition of the case and by order of the chief executive, Frank had begun the weary years of farm prison life, for a band of men to ruthlessly trample upon state authority; to so assert individual will against every statute of law, is to bring reproach upon the state in which such a state of anarchy could exist.

Cutting the wires to the prison, so as to prevent calls for help, twenty-five armed men made a prisoner of Warden Smith and roughly dragged Frank from the prison to the waiting automobile, in which the man was rushed a hundred miles to Marietta, the former home of Mary Phagan, the girl he was accused of having murdered. Within sight of her home Frank, half dead from recent wounds, was strung up to a tree and, not satisfied with the brutal murder, the body was subjected to many indignities.

The lynching had been carefully plotted and was deliberately carried out with clever ruse to prevent detection until too late for interference.

Frank's sensational case is too recent to need recalling. There had been a series of murders in Atlanta and vicinity and the police had failed to secure the murderers. The people became worked up to a pitch that demanded a victim and the crowning crime of the series was the murder of Mary Phagan, exciting them beyond reason.

Intimidated by the spirit of mob rule the Frank jury brought in a verdict of murder in the first degree, the verdict based entirely upon circumstantial evidence. Frank was convicted upon the startling and spectacular testimony of a negro, a criminal of the chain gang, and thought my many to have himself been the perpetrator of the crime.

Unable to obtain for Frank a fair trial, and in response to petitions from hundreds of thousands of people in every walk of life, Governor Slaton commuted Frank's sentence to life imprisonment. The Governor's act was in no sense a vindication, but based upon the belief that there had been no testimony except that of circumstantial evidence.

Forty-four states of the union were against Georgia and with the Governor, and from all of them poured letters and telegrams expressing sympathy with his commutation of the sentence.

Governor Slaton's act was that of the man with courage and conscience to do the right thing—it rang his death knell as a politician and sent him back to the obscurity of the private citizen.

In the scene of Monday night's crime at Marietta all the Governor's sacrifice; all that law and order stands for; all that distinguishes the law abiding citizen from the criminal, was trampled down under the unjustifiable reign of mob rule.

American Cities Should Be Given Power to Govern Themselves

By JOHN PURROY MITCHEL, Mayor of New York

BECAUSE of the new spirit in American city government there is developing the country over a quickened demand for municipal freedom to enable the cities to deal with their local problems in the light of their local experience and the knowledge and understanding which can be developed alone within the cities themselves.

EFFICIENT CITY GOVERNMENT COMES ONLY WITH A RESPONSIBILITY FOR RESULTS. THAT RESPONSIBILITY SHOULD BE ON THE CITIES AND THE PEOPLE OF THE CITIES.

From my knowledge of the administration of the departments of the state and my knowledge of the administration of the departments of the national government I think I can say without fear of contradiction that the great departments of the city government have today more business principles applied in their administration than the departments of either state or nation, and, therefore, I SAY THAT THE CITIES TODAY FURNISH THE MOST CONSPICUOUS EXAMPLE OF THE SUCCESS OF DEMOCRATIC INSTITUTIONS.

Berthollet and Robespierre.
It is said that the celebrated savant Berthollet in the most dangerous times of the republic sustained his fearless love of truth. Some days prior to the ninth Thermidor a sandy deposit was found in a barrel of brandy intended for the army. The contractors, suspected of poisoning, were immediately arrested, and the scaffold was already prepared. Berthollet, however, examined the brandy and reported it free from all adulteration.

"You dare maintain," said Robespierre to him, "that that brandy does not contain poison?"
As his reply Berthollet drank off a glass, saying, "I never drank so much before."

"You have plenty of courage!" exclaimed Robespierre.
"I had more when I signed my report," replied the chemist, and here the matter terminated.

Seventh Century Needlework.

Before the end of the seventh century needlework was carried to great perfection in convents, where it was used for the establishment of the church and the decoration of priestly robes. Artists did not think it beneath their dignity to trace the patterns used for embroidery in their natural colors. A certain religious lady, wishing to embroider a sacerdotal vestment, asked no less a personage than St. Dunstan, then a young man, but already noted for his artistic skill and taste, to draw the flowers and figures, which she afterward worked in gold thread.

Interesting Scenes In Dahl-Millikan 1916 Outing

LURING WILD GEESE.

Live Decoys Are Often Used and Made to Play the Traitor.

American wild geese each spring migrate from waters of the southern states to the shores of the Arctic in northern Canada. The two great common varieties of the bird are the honkers and the wavy, or white, goose.

Both of these are extensively hunted. Covering, as they do, about 5,000 miles on their annual migration, these birds rest at various places en route and are thus shot by sportsmen almost across the length of the continent. The birds have a peculiar trait of always leaving one of their number on look-out while the rest feed.

To aid in the shooting of wild geese live wild ones, captured young and raised in captivity, are often placed in feeding grounds in likely territory on the line of flight of the migrating flocks. These decoys are terrible traitors and by their calling often bring the flying ones within shooting distance of the sportsmen, who lie in hidden pits near at hand.

Painted decoys, shaped like geese and made of steel, are also used by the hunters. In the latter case the men, from their hiding place in the pits, call the birds by using a goose call, a metal instrument like a flute, which mimics the sound of the goose with remarkable realism.—Philadelphia North American.

WASHINGTON TO OBSERVE COMMUNITY DAY, OCT. 3

Mayor Coffey Issues a Proclamation Following Receipt of Communication From President Ben. R. Vardaman, of the National Community Betterment Association.

In response to an appeal issued by Ben R. Vardaman, president of the National Community Betterment Association, with headquarters in Des Moines, Iowa, that Washington C. H. join with other cities of the United States in observing Sunday, October 3, as "Community Day," Mayor Coffey has issued the following proclamation:

Whereas, all good citizens are interested in the welfare of their town, community, state and nation, and:

Whereas, the upbuilding of the resources of the local community, its business, society, churches and schools tends to bring about conditions that in turn produce the very highest type of citizenship, and:

Whereas, there should be no town or community in the world better for our own people than Washington C. H., because every man, woman and child is a part of the community, and it in turn is a part of them and becomes just what they make it, and:

Whereas, every citizen has an individual responsibility, as well as an opportunity, in this community, and:

Whereas, The National Community Betterment Association has designated Sunday, October Third, 1915, as "Community Betterment Day" to be observed throughout the nation. And all good citizens, ministers, professional men, farmers, laboring men, and all others, both individually and through their various societies and associations, are uniting in other cities, towns and communities throughout the country on this day to promote community welfare.

Therefore, I urge our people to unite in making this day, Sunday, October Third, 1915, a memorable day in our home community. On this day give thought to the good things about you—say a good word for your community—go to church—shake hands with your neighbor—greet the stranger—unfurl the flag.

Signed
CHARLES F. COFFEY,
Mayor.

The Community Betterment idea has been taken hold of with enthusiasm all over the country.

\$419 AND WATCH ATTACHED BY STEELE

Robert S. Steele, of this city, through Attorney P. E. Dempsey has filed action in the common pleas court of Franklin County for the attachment of \$419 and a watch removed from the five men who were arrested a short time ago for flim flammings him out of \$710 on fake horse races.

The suit for recovery of the money was filed against W. Z. Leonard and Arthur Wheelless, who are still in the Columbus city prison. Wm. C. Woodward and Richard Golden, both of Cleveland, were released on habeas corpus proceedings after they had established their innocence.

Indications are that Steele will secure the return of the bulk of the amount he claims to have lost.

FORMER POLICE CHIEF IS DEAD

Former Chief of Police of this city Joseph F. Kerrigan, aged 57 years, died at his home in Sidney, Ohio, at 4:30 o'clock Wednesday morning, after a lingering illness of many weeks.

Mr. Kerrigan had been suffering from lung trouble which terminated in pneumonia, and after lingering for several weeks, and gradually losing strength, death relieved him of his sufferings just as the sun broke over the horizon Wednesday morning.

The deceased leaves a widow and two children, Terrence and Mary Agnes. Two sisters, Misses Agnes, and Ella, of this city, left for Sidney soon after news of his death was received here.

Mr. Kerrigan was born near Cleveland, Ohio, and at the age of two years moved with his parents to New Holland, where he grew to manhood. At one time he was engaged in the grocery business in Circleville, later taking up railroad work, and for more than fifteen years was employed by the Pennsylvania and B. & O. railroads.

He moved to this city in 1887 and in 1898 was appointed to the police force under Mayor Dahl. In February, 1907 he was made Chief of the Police under Mayor George F. Robinson and held that position for several years.

Soon after he quit the police force in this city he moved to Sidney where he has been engaged in business. Funeral services will be held in Sidney, Saturday morning, and interment will be made in the cemetery at that place.

FUNERAL SERVICES OF JOHN MCCOY

The funeral services of Mr. John McCoy, held Tuesday afternoon at the residence on the Waterloo pike, were very largely attended, a wide family connection being extensively represented as well as family friends from all over the county.

Rev. Born, of the West Holland circuit, conducted the services, supplementing the memoir with appropriate remarks. Miss Jesse Leavell, of Bloomingburg, sang two hymns beautifully. Many flowers, both designs and cut flowers, surrounded the casket. A long line of autos and carriages accompanied the family to the Washington cemetery for the interment.

The pallbearers were the four brothers, Messrs Elias McCoy, Mart L. McCoy, F. M. McCoy, of this city, Mr. James McCoy, of Detroit, Mich., Mr. J. A. Melvin, a brother-in-law, Mr. Al McCoy.

CITY VIRTUALLY FREE OF TYPHOID

Notwithstanding the wet season, Washington so far has been remarkably free from contagious disease during the summer, and Health Officer Byron reports that no cases of typhoid fever have come to his attention for a long while, and so far as known no other serious contagious disease usually appearing in the summer, are within the city limits at present.

The absence of typhoid, diphtheria and kindred contagious diseases reflects no little credit upon the city Board of Health, and particularly upon Health Officer Byron, who has devoted much time to his duties while in office.

ROSS COMMISSIONERS READY WITH THE CASH

At a meeting of the Ross county commissioners held this week resolutions authorizing the expenditure of \$2,050, Ross county's share of the hospital site cost, were adopted.

At an early meeting of the Fayette county commissioners a resolution will be passed authorizing the payment of Fayette's portion of the cost.

HOW TO MAKE ONE DOLLAR DO THE WORK OF THREE

City and Education Board Asked \$133,000 for Next Year's Expenses, But Only \$57,800 Will Be Available With Tax Increase of .3 of a Mill—Reduction of \$61,000 Is Figured Out By Budget Commission Before Task Is Temporarily Abandoned.

How to stretch out \$57,800 to do the work of \$133,510 asked by the city and city school board, is the problem which confronted the Budget Commission when it met Tuesday afternoon to make up the 1915 budget.

The city wanted \$73,610 for the coming year and the school board asked for \$60,000 for the coming year, so the budget commission took up the work of devising some way to solve the problem of making one dollar do the work of nearly three, and as a result a great many big cuts were made in the amounts asked for and the tax rate in the city will, in all probability, be boosted from 12.7 mills to even 13 mills, or .3 of one mill, bringing in approximately \$57,800 for all purposes.

When the commission, which is composed of Prosecutor Maddox, Auditor Henkle and Treasurer Quinn completed its figuring, the result somewhat similar to the following figures.

Amount asked for by Board of Education, \$36,000 for tuition, \$12,000

for contingent expenses and \$12,000 for interest and sinking fund. Amount to be granted by the Budget Commission, tuition \$22,000, contingent \$4,000, interest and sinking fund \$12,000. Total \$38,000.

Amount desired by city outside of school purposes: General fund, \$4,000; Health, \$500; Safety, \$10,000; Service, \$35,910; interest and sinking, \$21,000; Library, \$2100; total \$73,510.

Amount which may be granted by Budget Commission: General, \$3,800; Health, \$500; Safety, \$7,000; Service, \$10,500; interest and sinking, \$11,000; Library, \$1,700; total \$34,500. The combined totals of the amount which the commission worked out, but which has not yet been thoroughly decided upon, reaches approximately \$72,500, or nearly \$15,000 more than the duplicate of \$8,573,200 brings in, and how the necessary amount will be obtained must be worked out later.

The increase of .3 mill brings in an additional \$2,500 over last year's amount.

As the law limits the amount to be raised, the city and board of education will, as usual, "make the best of the worst" of the proposition.

IS CANDIDATE FOR MAYORALTY

OPEN LETTER TO THE CITIZENS OF WASHINGTON C. H., OHIO.

By request of my many friends, I herewith announce myself as an independent candidate for the office of Mayor of this city, subject to the decision of the voters at the coming November Election.

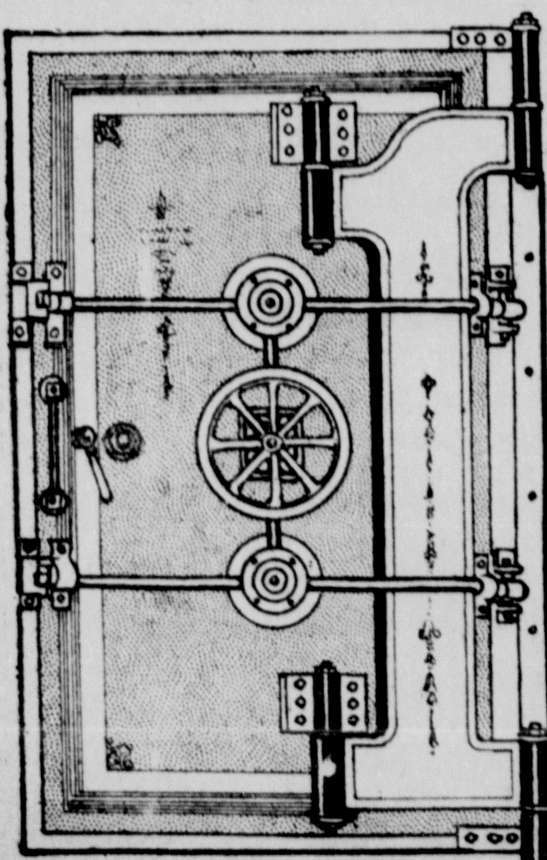

Being a resident of this city for almost a half century, being constantly engaged in the manufacturing business, I feel deeply interested in the uplift of our moral as well as our business interest. As to my executive ability, no one knows, until tried.

I am proud of the legacy my parents left me which I hold dear to this day, namely, DO RIGHT. I shall stand as a stone wall in the defense of PURITY and RIGHTEOUS CITIZENSHIP.

Should I be chosen to be the candidate on an independent ticket, then my Golden Rule Platform will be enunciated, and will be made of such material that any minister of the gospel, layman or any citizen favoring law and order can stand on it without fear of humiliation. I shall enter the race boldly, with malice toward none and charity for all and with the dignified purpose of upholding the right as God gives me the light to see the right.

Respectfully yours for Good Civic Municipal Government.

HENRY C. SHOOP.

UNION DELIVERY

In Social Circles

A most interesting meeting of the ladies' Presbyterian missionary society was held on Tuesday afternoon at the attractive home of Mrs. Jesse Persinger. Assisting hostesses for the day were Mesdames N. B. Hall, Sites, J. L. Persinger, Crooks, Fitzgerald, Madora, Noble, Probasco, Roberts, Hutchinson, L. C. Mallow, Carl Mallow, Post and Miss Belle Crooks.

Mrs. Austin Hopkins, president of the society, presented the subject of the work of the coming year in a forceful earnest way, the box work and literary work and conditions faced just now in the countries of special missionary interest.

The program with Mrs. Carl Meier as leader, was opened by a paper read by Mrs. L. L. Bowman—"A Little Maid Who Went into all the World"—a story which had its most beautiful lesson for missionary workers.

Miss Emma Jackson, with the subject of the Missionary Watch Tower, gave many most interesting facts from all over the world, proving the results of mission work, and closing with the definition "Missions Means the Mind of the Master Multiplied

by His Messengers." Miss Mary Baughn gave two beautiful solos on the piano and a social time was enjoyed after the meeting closed.

The following account of the marriage of Dr. D. R. McVay, Superintendent of the Sidney Schools, and formerly superintendent of the schools in this city, will be read with much interest by Mr. McVay's many Washington friends:

"Sidney, O., August 17.—Monday afternoon Miss Grace Fullington and Dr. H. R. McVay were quietly married at Milford Center by the Reverend Father George Hickey, and left immediately for Chicago, by way of the lakes, from there going on to Ottumwa, Iowa.

"The bride has been director of the gymnasium in the Sidney High school for the past year, and the groom is superintendent of the Sidney schools."—Dayton News.

Mrs. D. O. Beath, of the Robinson road, entertained at a delightful dinner Wednesday Mrs. Carrie B. Willis, Mrs. Robert Howatt, Mrs. R. O. Young, Misses Minnie Light, Gertrude and Edith Gardner.

Dr. and Mrs. L. M. McFadden, daughters Doris and Anna Lee and son Robert are leaving for a few days' outing at Russell's Point.

Miss Mary Dunn of Columbus is the guest of Mrs. Frank Michaels for the week.

Mr. and Mrs. Frank Osborn of Milledgeville left Wednesday morning on an extensive western trip. They will visit principal places of interest enroute to the coast and attend the Panama-Pacific exposition.

Miss Mollie Foster has been the guest of her sister, Mrs. Belle Smith this week, enroute from a trip to Mackinac and the Soo, to Xenia, where she is teaching in the O. S. & S. O. Home. She leaves Thursday for Xenia.

Mrs. D. L. Jones and Mrs. Bliss Glenn, of Greenfield, are the guests of Mrs. Arthur Leland, for the Bridge party given by Mrs. Frank Michaels and Miss Regina McDonald this afternoon.

Hon. and Mrs. H. L. Hadley, daughter Mrs. Will Sprenger and daughters Elizabeth and Wilhelmina leave Thursday for an indefinite stay in the east. They will visit relatives in Sandwich Center and Whiteface, New Hampshire, where it is the custom to hold family reunions each summer, and also in Massachusetts.

Miss Dorothy Smith of Bainbridge is Miss Helen Harper's guest for the midsummer dance. Mr. Vivian Crawford of Woodstock, and Mr. Cahill of Chillicothe, will also be Miss Harper's guests for the dance.

Mrs. Philip Rothrock Jr., and daughter Philliseda, of New Orleans, La., who have been visiting at Mrs. Rothrock's home in Columbus while Mr. Rothrock is on a business trip to Texas, arrived Tuesday evening to visit Mr. and Mrs. Philip Rothrock.

Miss Katharine Kelley, of Xenia, is the guest of Miss Jean Howatt.

Mr. and Mrs. Frank Swormstedt, who have been guests the past week of Mr. and Mrs. Ralph Allen, left Wednesday for Greenfield where they will visit before returning to their home in Newport.

WILL PICK BOYS TO THE STATE FAIR

Saturday morning at ten o'clock at County School Superintendent O. S. Nelson's office, two Fayette county boys will be selected to attend the State Fair free of charge.

So far there are only two boys entered for the trip, and as each county is entitled to two lads, little rivalry is anticipated.

At the above mentioned hour and place those qualified as voters will decide which boys shall go to the fair.

RETAINING WALL IS LOOMING UP

The new concrete block retaining wall is looming up about the court house terrace on the north and west sides.

At the present time the wall is nearing completion from the corner by the jail to the steps west of the court house and will add greatly to the appearance of the court house lawn. At the corner of Market and Main streets the wall is curved gracefully. The concrete blocks will be capped with a concrete top.

Between the fountain corner and the west steps leading to the court house, the historic iron fence has been removed, and the retaining wall will be carried the full length.

Not only will the wall add to the beauty of the lawn, but will eliminate puddles of mud and water from the sidewalk.

FEW NATIVE BORN OBTAIN LICENSES

An examination of the marriage records in the Probate Judge's office discloses the fact that considerably more than half of the persons obtaining licenses are not natives of Ohio. In other words nearly two-thirds of the persons were born in counties other than Fayette.

In the last 25 licenses issued, eight of the men were born in Fayette and eleven of the women, or only nineteen out of the fifty contracting parties are natives of this county.

With very few exceptions the contracting parties who were not born in Fayette are natives of some of the southern Ohio counties, Ross, Adams, Pike and Highland being the leaders.

This indicates the great number of persons who, within the past 30 years, have moved to this county, principally for better agricultural opportunities.

SNEAK BURGLAR STILL AT WORK

The sneak thief and burglar who has been busy in that part of the city between Columbus avenue and Market street, was busy again Monday night, entering the home of Mrs. Sarah Patton on the corner of Columbus avenue and Forest street.

The burglar removed a screen at the Patton home, entered the residence through the window, and removed a pocketbook containing a small sum of money.

A few nights ago the fellow was seen removing a screen from a residence, but the window was locked down and he was unable to gain admittance.

It is the general belief that the burglar is a mere boy, and that he lives in the neighborhood above mentioned.

OFFICER QUARRELS AND IS SUSPENDED

Extra Policeman George Dahl doing traffic duty during the fair, was suspended by Chief of Police Moore Wednesday morning, following a personal quarrel in which Dahl is said to have struck Los Brown with his mace. The blow raised an ugly knot on Brown's forehead but did not seriously hurt him.

It seems there has been trouble between the two men for some time, Dahl declaring that Brown had been calling him offensive names. The men met on South Main street about 8:30 o'clock Wednesday morning and the fracas ensued.

The fact that Dahl was in uniform at the time cost him his commission.

STATE BOARD VIEWS NEW HOSPITAL SITE

The State Board of Charities with its inspectors and Dr. Patterson, of the State Anti-Tuberculosis Society, inspected the site of the new District Hospital, at Chillicothe, Tuesday afternoon, and it is understood pronounced the site a splendid one.

Approval of the site by the State Board was necessary before the commissioners could proceed.

GEORGIA ROUSED BY LYNCHING

Governor Harris Urges Prosecution of Members of Mob.

BODY SHIPPED TO BROOKLYN

Execution of Frank, Convicted of the Murder of Mary Phagan, the Outcome of Weeks of Deliberate Study and Planning—Prison Commissioners Exonerate Warden and Other Officials.

Atlanta, Ga., Aug. 18.—Despite the fact that Governor Harris instructed officials of Cobb county to exert every effort to apprehend the lynchers of Leo M. Frank, no state nor county rewards have yet been offered and no arrests have been made.

It developed that the death of Frank was the outcome of weeks of deliberate study and planning. It was executed with businesslike skill and precision. The living victim, fully conscious and aware of his impending fate, was transported more than 100 miles.

Frank was taken from the prison farm at Milledgeville after the prison authorities had been overpowered, thrown into an automobile and hauled over the county roads in a manner so orderly that even in Marietta no one knew of it until a voice, coming over the telephone to Deputy Sheriff Hicks at the break of dawn, said: "Leo Frank's hanging to a limb down here in the Frey gin neighborhood. Retribution!"

The hanging took place in a grove within a stone's throw of the hillside birthplace of Mary Phagan, Frank's alleged victim. Hurried to the village square, two miles distant, in an undertaker's dead wagon, the body was transferred to an automobile and

turned to Atlanta. It was embalmed after being witnessed by thousands of people, and later was carried to the depot and put on a train to Brooklyn, where burial will be held.

No violence other than strangulation was committed upon the body by the lynchers. Despite reports that it had been riddled by bullets, not a mark except upon the throat was visible when it was cut down. As it fell to the ground the foot of a frenzied onlooker was ground into the face, badly distorting the features and adding to the discoloration caused by blood congealing.

When it became known here following the lynching that Frank's widow was at the point of death from grief and horror, Atlanta expressed a revulsion of feeling. The very men who were bitterest in their denunciation of ex-Governor Slaton for saving Frank from legal execution a few weeks ago were in many cases crying for vengeance on the lynchers, and more particularly on the prison farm officials who permitted their helpless and wounded ward to be dragged from their very presence to his death.

The lynchers' brutality in the treatment of their victim, a man just recovering from a wound which all but cost him his life, and the collapse of the widow caused a feeling of pity and indignation to spread in the community which so recently was demanding the same man's life.

Governor Harris said: "I am greatly shocked and aggrieved and I do not believe the people of Georgia will at all approve of this action. I am sure that it will hurt Georgia greatly everywhere and I am extremely sorry that it occurred. It can be taken for granted that I will use my every power to see to it that members of this mob receive fitting punishment for their crime."

"Ex-Governor Slaton said: "It is a consummate outrage. Every man engaged in the lynching should be hanged, for he is an assassin."

ANTICIPATE CLEAN SWEEP

Atlanta, Ga., Aug. 18.—As a sequel of the lynching of Leo Frank it is stated that there will be a clean sweep of the Milledgeville prison officials. The most charitable opinion expressed was that only the most extraordinary cowardice or indifference could have permitted such an affair at an institution under armed guard of 25 or 30 men intrenched in prison buildings strong enough to have with-

stood a siege except with artillery. There was a widespread sentiment that the investigation which cleared the officials of responsibility for conditions which made the recent stabbing of Frank possible was too much in the nature of a whitewash. The lynching, following it, was generally declared to have passed the limits of endurance.

PRISON HEADS BLAMELESS

Milledgeville, Ga., Aug. 18.—Superintendent J. M. Burke and Warden James E. Smith of the state prison farm are held blameless by the board of prison commissioners for the seizure of Leo M. Frank by the mob. R. E. Davison, Thomas E. Patterson and L. Rainey, constituting the prison board, happened to be at the pen here when Frank was taken from the building. All three of them speak in regrettable terms over the occurrence they witnessed in part. They were spending the night at the residence of Superintendent Burke and had just gone into their rooms when the alarm was sounded that a mob had come for Frank. Before they could get to the prison grounds the mob was beginning to move off. They declare no blame attached to the prison officials.

TO BURY FRANK IN BROOKLYN CEMETERY

New York, Aug. 18.—Mr. and Mrs. Rudolph Frank, parents of Leo Frank, were notified of the lynching of their son through Frank's lawyers in Atlanta. "Thank God Leo is dead and through with his troubles," Frank's mother said. "If he had lived his life would have been a torture to him and they might finally have killed him in a worse way." Leo Frank's body will be buried in the Frank family plot in a Jewish cemetery in Brooklyn.

U. S. SHIP SUNK

Philadelphia, Aug. 18.—Reports brought over on the American liner Dominion, which arrived from Liverpool, were to the effect that the American liner Merion, requisitioned by the British admiralty as a troop ship, had been sunk by the fire of the Turkish batteries at the Dardanelles.

EIGHT MEN EXECUTED

Officials Charged With Treachery Are Shot to Death.

El Paso, Tex., Aug. 18.—News received from Chihuahua City confirmed reports relative to the execution of a large number of men by General Villa in that city following his return there from his conference in El Paso and Juarez with General Hugh L. Scott. The victims were prominent men in Mexico prior to the Villa rule or since he came into power in Chihuahua. The list follows:

Guillermo Terrazas, grandson of General Luis Terrazas; Felipe Gutierrez, governor of Chihuahua during the Orozco revolution; Luis Gardea, brother of Colonel Gardea; Aureliano Gonzales, governor of Chihuahua during Villa's first success; Sylvester Terrazas, former secretary of Chihuahua state; Enrique Garcia, secretary to the mayor of Chihuahua City; Perchez Enriquez, formerly Villa purchasing agent on the border, and General Del Poso, a brigade commander.

The Villa officials executed were shot, it is stated, on the charge of treachery, either because they were conniving to join the Carranza element or the peace movement.

General Rios Delya, purchasing agent for Villa on the border, was arrested in Juarez and sent to Chihuahua City.

Partially confirmed reports received here stated that General Manuel Chao, commander of Villa forces at Parral, is preparing to evacuate that city and join the Carranza forces in Durango.

SEC'Y DANIELS ON THE LYNCHING

Washington, Aug. 18.—Secretary of the Navy Daniels issued a formal statement denouncing the lynching of Leo M. Frank as the worst blot on the name of Georgia, declaring that it would be more sincerely condemned in the south than in any other part of the republic.

AVIATOR KILLED

Erie, Pa., Aug. 18.—Donald Gregor, twenty-four, of Ann Arbor, Mich., an aviator on board the United States naval militia ship Essex of Toledo, was fatally injured when he fell 300 feet during a flight. He was picked up by officers of the naval militia fleet, now maneuvering off this port, and hurried to a hospital, where he later died.

ITALIANS ATTACK

Rome, Aug. 18.—Italian troops within the last forty-eight hours have launched a concerted attack upon the Austrian fortress of Tolmino, situated on the upper Isonzo, and of the same strength as Goritz. Under cover of the heavy guns infantry detachments made some progress toward the forts, and in the subsequent fighting took 564 prisoners, including 17 officers.

GEN. BLACK DIES

Chicago, Aug. 18.—General John C. Black, civil war veteran, former United States commissioner of patents and a member of the United States civil service commission, died suddenly in his room at the Palmer House. He was commander in chief of the G. A. R. in 1903.

ROUMANIA MUST DECLARE HERSELF

New York, Aug. 18.—The government of Roumania wants to buy munitions of war in this country, but it can not place its orders for ammunition until it announces just how it intends to swing in the Balkan situation. If it swings with Germany its orders will not be filled by companies that are supplying the allies. If it joins the allies the orders can be easily placed.

KILLED BY HUSBAND

Logan, O., Aug. 18.—Val Reuter, thirty-six, stationary engineer, was shot and killed at Grendale, O., ten miles east of Logan, Hocking county, by Alf Deibel, thirty-five, when the latter returned unexpectedly to his home and found Reuter there. Deibel gave himself up.

He Removed the Danger Signal

"I suffered a long time with
a very weak back," writes Fred
Smith, 325 Main St., Green Bay, Wis.
"A few boxes of Foley Kidney Pills
completely relieved me of all soreness
and pain in the back, and now I am
as strong and well as ever."
"One cannot help becoming nervous
and feeling tired and worn out when
the kidneys fail to filter and throw
out of the system the poisonous waste
matter that causes kidney troubles
and bladder ailments."
"Backache is one of Nature's danger
signals that the kidneys are clogged
up and inactive. It is often followed
by rheumatism, annoying bladder or
urinary disorders, puffy swellings
under the eyes, swollen ankles and
painful joints."
"Foley Kidney Pills get right at the
source of trouble. They invigorate
the kidneys to healthy action and
when the kidneys properly perform
their functions the poisonous waste
matter is eliminated from the system."

LOSS OF LIFE CONSIDERABLE

All Business Houses and Residences
on the Water Front Reported Ru-
ined—Great Concrete Sea Wall
Saved the Texas Port From a Repe-
tition of the Great Disaster of 1900.
Story of the Storm.

Dallas, Tex., Aug. 18.—The follow-
ing message was received by the Fort
Sam Houston wireless station at San
Antonio from the United States trans-
port Buford at Galveston:

"Water in Galveston streets is three
feet deep. Considerable loss of life
reported. All business houses and
residences on water front are ruined.
Grain elevators and docks are wreck-
ed. Barges and tugs tied up at docks
were sunk. Large steamers broke
loose from docks and damaged. United
States transport McClelland is
aground high and dry."

According to all reports received
here the great concrete sea wall saved
Galveston from a repetition of the
great disaster of Sept. 8, 1900, when
thousands of lives were lost. Although
all Monday night and part of Tuesday
the streets were running with water
to a depth of five feet and people
climbed to second stories to save
themselves, the sea wall held back the
force of the torrent.

For hours the Gulf of Mexico was
on a level almost with the second
stories of buildings in Galveston. The
wind blew eighty miles an hour. Fire
broke out in the Grand Central hotel
and guests were forced to flee. Fire-
men fought the flames with water up
to their necks. According to reports
received here the flames were checked.

Water reached a height of five feet
in the Union station, and in other sec-
tions it reached as high as ten feet.
When the first storm warnings came
Monday morning merchants worked
frantically to move their stocks to up-
per floors of buildings, but many were
caught by the whirling waters. It is
roughly estimated that the property
damage will reach two to three mil-
lion dollars.

The police organized rescue forces
and commandeered launches and
other small craft. These were used
to transport families from precarious
places to the transport Buford.

The eighty mile gale piled up a
great wall of water that swept across
Galveston island then on to the low-
lying coast, causing flood damage to
Texas City, Port Bolivar and sur-
rounding towns. Houston, fifty miles
north, was struck by the gale, and
many buildings unroofed. The storm
swept inward to central Texas, doing
damage to Temple and Waco. The
wind has reached a velocity of fifty
miles an hour in Dallas and many
houses have been unroofed.

Torrential rains followed the hurri-
cane, sweeping out railway bridges
and tearing down telegraph and tele-
phone wires. Fields of cotton have
been swept clean of their staple and
homes have been wrecked. Train ser-
vice has been demoralized practically
over the entire state. People at Gal-
veston had ample warning of the
storm and at least 10,000 fled over the
concrete causeway that leads to the
mainland.

At Rockport, Point Isabelle, Corpus
Christi and other southern coast
towns serious storms were experi-
enced, but no great damage is re-
ported.

For President of Elks.
Cedar Point, O., Aug. 18.—Indorse-
ment by the Cincinnati Elks delegates
of the candidacy of E. G. Slough of
Mansfield for president of the Ohio
Elks' association was the feature of
the three-cornered fight for the honor.
His chief opponent, Ed Strong of

WON'T SIGN

New York, Aug. 18.—Harris Wein-
stock, a member of the United States
commission on industrial relations, de-
clared the majority of the commission
had declined to sign the report sub-
mitted by Basil M. Manley, director,
because they felt it was "only a par-
tial report of the findings and unfair."
"We had hoped to sign and submit
one report to congress," said Mr.
Weinstock, "but when we read the
Manley report, which was signed by
Chairman Waisa and the three labor
members of the commission, we found
another report was necessary. This
was signed by five of the nine mem-
bers. In addition to the majority re-
port the three employers on the com-
mission drew up an addenda and at-
tached it to the general report."
"In this addenda it is made plain
that the hearings of the commission
showed that neither capital nor labor
can come into court with clean hands;
that both are guilty of sins of com-
mission and omission, and that each
is responsible for a full share of the
existing industrial strife and unrest."

UP TO THE OPERATORS

Columbus, Aug. 18.—The state
utilities commission will not make its
own investigation of freight rates on
Ohio coal by means of its own ex-
perts. This was stated by Chairman
Deecher W. Waltemire during re-
sumption of the rate investigation
hearing on complaint of the coal min-
ers' organization.

Judge George B. Okey, attorney for
the miners, said the complaint had
been filed on the assurance that coal
operators would produce the data af-
fecting rates from their coal districts,
but so far, with the exception of the
Sunday Creek Coal company, they had
not done so. He suggested the com-
mission fix a date when operators
should file an intervening petition, if
they intended to come into the case.

MOVIE CENSOR LAW HELD SAFE

Columbus, Aug. 18.—Because a re-
ferendum has to be started within nine-
ty days from the time a measure is
to become law, Attorney General
Turner gave an opinion that the movie
censor act can not be reached in any
such manner. The only thing that is
possible is to reach the so called Be-
saw amendment passed at the last
session. Even if a referendum should
prevail against the amendment, Mr.
Turner finds that it could not in any
way affect the original law.

THOUSANDS FLOCK TO FAYETTE'S BIG FAIR

Doubtful Weather No Hindrance to Eager Amusement Seekers.

RACES AND HORSE SHOW ARE FEATURES

Splendid Exhibits in All Departments Combine to Make This Year's Fair One of the Greatest in History—Midway Is Highly Popular.

While a threatening sky and a chill temperature had its effect on the usual Wednesday-of-the-fair procession to the Fayette county fair grounds early today, a few encouraging winks from Old Sol later in the morning seemed to dispatch the fears of the timorous and by noon the customary stream of humanity, as vigorous, if not more so, as in seasons past, begun pouring out the streets in the direction of Fayette's big annual exhibit.

The railroads began unloading their unusually large complement of visitors early and continued throughout the day, while scores of automobiles, from all directions, virtually flowed into the city and kept traffic officers continually vigilant.

At the fairground, booths, exhibit halls and stables, all bustling with the excitement of anticipation, gave promise of one of the greatest fairs in the history of Fayette county.

Horse Show Classes Wednesday.

Within a few feet of where rest those equine heroes of other days, Bobby Burns and Major Mallow, another show held Wednesday morning demonstrated that Fayette county's prestige is still high in the horse kingdom and that her breeders are still masters of the art of producing splendid horses.

The show was staged in the quarter-stretch, and while not as large in numbers as the Belgians, which show tomorrow, still the Shires and Percherons which made the program made a fine show.

In the Percherons, James Bros. of Jeffersonville, carried off the most honors—six firsts and two seconds, along with the premier honor, the championship cup offered by Charles Allen for the best Percheron stallion shown. They won this with Lagardere, a four-year-old that will head their exhibit at Columbus and Detroit. The reserve was Knight, owned by Homer Hutson, of Yatesville. This horse, a two year old, stood first in his class.

In the younger classes, the star was Ornate, who will carry the James colors in the Eastern Percheron Futurity at Columbus week after next. As indicating his scale, it may be mentioned that he was publicly weighed today, and scaled 1460 pounds. He is but a few weeks older than one year. In the mare division, Veda and Chopine, imported mares that have been winners at State fairs, were first in their classes.

In Shires, H. W. Wilson & Sons made the only exhibit and showed fifteen animals in the various classes.

PURE AND POTENT OLIVE OIL

Only one kind of Olive Oil should be used and that is the kind that you can be absolutely sure is pure and potent. Such an oil is equally good both as a condiment, salad dressing or as a food. It is the kind of oil your doctor wishes you to take when he recommends Olive Oil for you. It's the kind of oil you will be pleased to serve your guests.

Our Olive Oil will satisfy all your requirements: You'll be absolutely satisfied with it.

A youngster, a year old, was judged highest for the Shire Cup. The Judging was done by Prof. David Fyffe of the O. S. U., one of the foremost authorities on draft breeds in the country.

The Fair Board has carried the Belgian judging over until tomorrow afternoon, when the quarter-stretch will be used. With the wonderful collection of Belgians now stabled at the grounds, a wonderful show will result. Entered are the stables of Roy Hagler, Frank L. Parrett, Elton Marine, Howard Hegler, and R. H. Miller.

The Awards. PERCHERONS.

Stallions, 3 years—First, James Bros.; Second, M. L. McCoy. 2 years—First Homer Hutson. 1 year—First, James Bros. Colt—First, James Bros.; Second, Homer Hutson.

Mare—3 years—First, James Bros.; Second James Bros. 2 years—First, Clark Post; Second, Clark Post.

Colt—First James Bros. Second, James Bros.

Brood mare and colt—First, James Bros. Second M. L. McCoy.

Champion Cup for stallion—Winner, Lagardere, James Bros. Reserve, Knight, Homer Hutson.

Race Track.

The race track was in prime condition for speedy going and the entry lists early in the afternoon gave promise of rare entertainment. The large amphitheater was filling well an hour before the races were scheduled to begin, and from the stables it was announced that the entries were in excellent condition for the contests.

Amusements.

The merry-go-rounds, the motor-drome and the various midway attractions were doing a land office business and the crowds of amusement seekers had come prepared to remain for the big attraction, the balloon ascension and parachute leap following the races. This feature is said to be first class and has been engaged for Thursday and Friday afternoons as well.

Among the Exhibits.

The cattle show this year is exceptional. The feature exhibit of this show is that of H. M. Brown & Co., owners of the Highland County Stock Farm, under the direction of A. J. Frye, which consists of eighteen splendid Aberdeen Angus cattle. This herd is to be exhibited later at the Panama-Pacific exposition. Mart McCoy is the superintendent of the cattle show.

The showing in the swine department, in charge of O. A. Klever, is very good. Among the exhibitors are J. W. Townsley, 20 head of Poles and Chinas; C. C. Creamer, 12 head Berkshires; Elmer Hutchinson, 5 head Duroc Jerseys; Gilbert Syfert, 6 head Duroc Jerseys; T. J. Pope, 1 Duroc Jersey.

The agricultural hall, in charge of Orris Hegler, was being fitted out today. The mammoth combination exhibit of B. C. Mace will cover one entire side of it. This exhibit includes grain, fruit and flowers.

The art hall is a place of rare attraction. Entries are heavy and include water color and charcoal work, china painting, embroidery and fancy work. The entire center is utilized in a vast flower display. Miss Flora Allen is in charge.

The agricultural implement display is the largest and best arranged of years, and represents many local business men. James Ford is superintendent of this department.

Ed Berry is chief of the exhibitors of the very creditable poultry department. Mr. Berry, who resides at Shreve, O., has 126 entries. D. E. Mershon is managing the poultry show.

UNION STATION PLANS EXPECTED

Plans and specifications for the B. & O. railroad company's new union passenger station are expected to reach this city either this week or next, and a definite idea can then be gleaned as to the size of the station and how it will appear when finished.

The plans and specifications are to be in the hands of Mayor Coffey within 30 days from the time Vice President Thompson was here, and about the same time a set of plans and specifications will be placed before the Dutch Treat Club of this city.

Meanwhile plans for track changes and other work are being worked out by the B. & O. engineers.

PAY VISIT TO PEACH ORCHARDS

Mr. Wm. M. Campbell and Mr. Albert F. Kyte, in charge of the Dahl-Millikan fruit department, are quite enthusiastic over a visit to the Pleasant Ridge peach orchard, back of Wakefield, in the mountains of Pike county.

The orchard contains over 11,000 trees of beautiful Elbertas and other varieties of peaches.

Mr. Campbell says that during his recent trip to California he saw nothing more beautiful than this fruit laden orchard against its background of green mountain-side.

CANNING FACTORIES SUFFER IN FLOOD

Mr. Fred Dunton, of Indianapolis, Ind., special representative of Graft & Johnson, the largest canning firm in the United States, was the guest of Mr. Wm. M. Campbell, general manager of the Dahl-Millikan Grocery Company, this week and accompanied him on a visit of inspection to the canning factories of Circleville and Chillicothe and through those of this city.

In the flooded districts of the Scioto valley two thousand acres of corn was found under water and 100,000 cases of corn had been washed away from factories located there.

than three score lives were lost and
property damage estimated at mil-
lions of dollars was caused by the
great tropical storm which swept the
gulf coast of Texas yesterday and
the day before, according to infor-
mation received here today.Houston, Galveston and Beaumont
remain practically cut off from the
outside world, but wire companies
expected to be able to communicate
with all three places before night.Although rain was still falling in
some places, the wind had lessened
in velocity.Copies of yesterday's Houston
newspapers, received today, told of
the death of twelve soldiers and
thirty or forty civilians at Texas

that Leo M. Frank, who was lynched

CALLING IN
GOLD SUPPLY

By Associated Press.

Paris, August 18.—One hundred
and eighteen millions of francs in
gold was exchanged for bank bills
at the Bank of France, its branches
and other establishments authorized
to receive it in the last few weeks.
To provoke this influx of gold no
more was required than the state-
ment of the Minister of Finance that
French citizens could show their pa-
triotism by helping increase the goldreserve of the Bank of France as
well as by fighting in the trenches.The first week produced 13 mil-
lions, the second 40 millions, and
the third 65 millions. To what sum
these exchanges are likely to mount
no one risks a guess, the movement
is reaching such formidable propor-
tions without official insistence or
pressure of any sort. Judging by
the comprehensive character of the
multitude that crowds the windows
at which gold is received, there will
be little left in the safe deposit
vaults, in the woolen sock or in the
child's saving bank when the pro-
cession has finally passed.There is an estimated net total of
coined or coinable gold of 8 billion
500 million francs in France at the
present moment.REFERENDUM ON

Berlin, August 18.—The following

with all the forts and an amount of
war material which has not been de-

since last night."More than 400 cannon were
taken."The fortress was captured by
storm, in spite of the most tenacious
resistance by the Russians."The capture of Kovno raises the
question whether the Russians will
be able to hold the Brest Litovsk line
or whether they will again be com-
pelled to make a general retreat. Ger-
man troops are but 13 miles from
the Brest Litovsk line. Novno is
550 miles southwest of Petrograd,
the possibility of an advance against
which is now being considered in
Russia and England.Von Hindenburg personally took
command of the army attacking Kov-
no and the selection of German's na-
tional hero for this task indicated
the importance attached to it by the
German general staff.Military experts have agreed that
the loss of the fortress of Kovno
would be a serious blow to the Rus-

ing Kovno, and is thereby able to
cross the Niemen, he will be in the

To Our Friends--Our Customers

We are pleased to announce that our Twentieth Annual Outing Contemplates a trip to Washington City, Philadelphia and

ATLANTIC CITY THE PLAYGROUND OF ALL AMERICA

during the season of Nineteen Sixteen, traveling a beautiful scenic route in PALATIAL PULLMAN CARS.

We want you with us to share the full joy of such a journey. Our wish is that we could tell you so personally. As this can't be done, we send this announcement.

To the best of our ability we have tried to give you the full value of your money; in prompt service, merchandise of honest value, and courteous treatment.

The Trip is complimentary to those who concentrate. See Salesmen for the particulars.

ANNOUNCEMENT

The accompanying announcement sent out to customers of the Dahl-Millikan Branch of the Midland Grocery Company heralds a summer outing without precedent as a complimentary trip.

It would be impossible to schedule a trip offering greater opportunities for sight seeing; of greater interest and pleasure, and it will be conducted over one of the principal trunk lines, on solid trains of standard Pullmans, through a wonderfully beautiful scenic route.

It is a trip which, taken individually, would necessitate the spending of a large amount of money without securing the special service, attention and privileges that are always given to the outings conducted under the Dahl-Millikan management.

This progressive grocery company contemplates running this trip for the benefit of their customers, their families, clerks, etc., practically along the same plan and proposition of the past twenty years. It is purely an advertising proposition given complimentary to their customers for their push and preference in putting to the front Dahl-Millikan lines—lines which have established a most enviable reputation as unequalled in quality, low price and prompt service.

But withal the splendid success of past outings the twentieth annual outing stands in a class by itself in the extent and perfection of plans. Everybody wants to see Washington, D. C., and never has the capital attained to such beauty as during the past few years.

The quaintness of the Quaker City is rapidly passing and those who want to see Philadelphia before she loses all of her earlier historic interest in the metropolitan development of the great city, must do so quickly.

Not only does this trip include these two leading cities of interest, but it reaches a climax at Atlantic City, the world's premier pleasure and health resort, a city of hotels, cottages, shops, providing endless facilities for fishing, recreation and amusement, and the most perfect bathing beach on the Atlantic coast.

There is no one who does not long to visit Atlantic City and take part in the gay promenade on the famous "Boardwalk."

The Boardwalk extends eight miles

ton, D. C., and never has the capital attained to such beauty as during the past few years.

The quaintness of the Quaker City is rapidly passing and those who want to see Philadelphia before she loses all of her earlier historic interest in the metropolitan development of the great city, must do so quickly.

Not only does this trip include these two leading cities of interest, but it reaches a climax at Atlantic City, the world's premier pleasure and health resort, a city of hotels, cottages, shops, providing endless facilities for fishing, recreation and amusement, and the most perfect bathing beach on the Atlantic coast.

There is no one who does not long to visit Atlantic City and take part in the gay promenade on the famous "Boardwalk."

The Boardwalk extends eight miles

on the beach with a practically unobstructed ocean view. It is a substantial structure, erected from ten to fifteen feet above the strand, upon massive pilings, at a cost of half a million dollars. Every evening it is brilliantly lighted and during the summer season the gayest place in the United States.

Along the Boardwalk are theaters, concerts by noted bands, bowling, dancing and many amusements doubly enjoyed on the six great ocean piers extending seaward—in all the world the greatest series of piers devoted exclusively to recreation.

Endless diversion awaits the visitor in Atlantic City aside from the wonder of the ocean and the delight of ocean bathing.

Mr. Wm. M. Campbell, general manager of the Dahl-Millikan Branch, goes to Atlantic City next week to complete arrangements for the entertainment of the guests at leading hotels on the Boardwalk.

These hotels have their own farms from which are supplied poultry, butter and milk.

Mr. Campbell is giving his personal attention to all the trip plans and nothing will be overlooked in giving the company's guests the very best of everything.

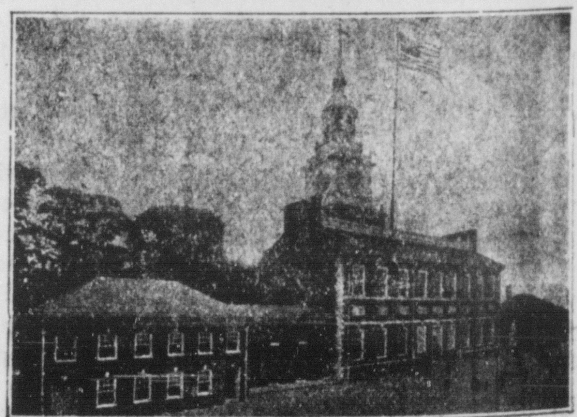

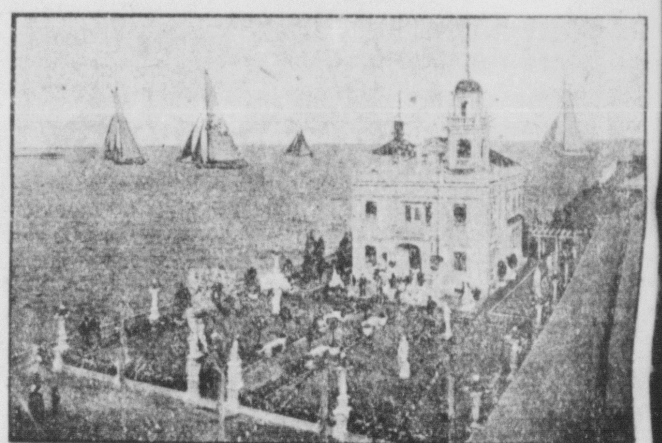

The outing will be held the latter part of June or early in July, 1916. Leaving this section on fast trains early in the afternoon the party will be in Washington, D. C. before breakfast, giving ample time to see the Capitol City and yet leave in the afternoon in time to reach Atlantic City for evening dinner.

Sight seeing cars will be waiting in Washington and experienced guides will show the party the city.

A similar sight seeing trip will be enjoyed in Philadelphia, probably enroute home.

Special solid vestibuled trains of ten coaches each will accommodate comfortably 450 people. The company will run as many trains as the bookings will require. From present indications five trains will be required.

Arrangements will be made to have these trains stop at convenient

places in the territory, starting probably at Washington C. H., Blanchester, Jackson, Springfield and Circleville.

The Pullman cars will be fully equipped with dining service and a feature, which is secured only through the influence of the Dahl-Millikan management, is the serving on small tables in each section of the regular elaborate Pullman dinner. Extra waiters will be installed for this purpose and the elimination of the tiresome waits in line for the diner will add immensely to the pleasure of the trip.

A trip like this offers the opportunity of a lifetime and it is a safe prophecy that every Dahl-Millikan patron who can possibly take advantage of a complimentary outing on a scale of such magnitude as planned for next year will do so.

The Lynching of Frank

The lynching of Leo M. Frank, Georgia's noted life-term prisoner, has horrified the people of the United States in its utter defiance of law and the inhuman frenzy of the act. It is a disgrace to the state of Georgia—an irradicable stain upon the pages of her history.

After the authorities had made final disposition of the case and by order of the chief executive, Frank had begun the weary years of farm prison life, for a band of men to ruthlessly trample upon state authority; to so assert individual wills against every statute of law, is to bring reproach upon the state in which such a state of anarchy could exist.

Cutting the wires to the prison, so as to prevent calls for help, twenty-five armed men made a prisoner of Warden Smith and roughly dragged Frank from the prison to the waiting automobile, in which the man was rushed a hundred miles to Marietta, the former home of Mary Phagan, the girl he was accused of having murdered. Within sight of her home Frank, half dead from recent wounds, was strung up to a tree and, not satisfied with the brutal murder, the body was subjected to many indignities.

The lynching had been carefully plotted and was deliberately carried out with clever ruse to prevent detection until too late for interference.

Frank's sensational case is too recent to need recalling. There had been a series of murders in Atlanta and vicinity and the police had failed to secure the murderers. The people became worked up to a pitch that demanded a victim and the crowning crime of the series was the murder of Mary Phagan, exciting them beyond reason.

Intimidated by the spirit of mob rule the Frank jury brought in a verdict of murder in the first degree, the verdict based entirely upon circumstantial evidence. Frank was convicted upon the startling and spectacular testimony of a negro, a criminal of the chain gang, and thought my many to have himself been the perpetrator of the crime.

Unable to obtain for Frank a fair trial, and in response to petitions from hundreds of thousands of people in every walk of life, Governor Slaton commuted Frank's sentence to life imprisonment. The Governor's act was in no sense a vindication, but based upon the belief that there had been no testimony except that of circumstantial evidence.

Forty-four states of the union were against Georgia and with the Governor, and from all of them poured letters and telegrams expressing sympathy with his commutation of the sentence.

Governor Slaton's act was that of the man with courage and conscience to do the right thing—it rang his death knell as a politician and sent him back to the obscurity of the private citizen.

In the scene of Monday night's crime at Marietta all the Governor's sacrifice; all that law and order stands for; all that distinguishes the law abiding citizen from the criminal, was trampled down under the unjustifiable reign of mob rule.

American Cities Should Be Given Power to Govern Themselves ::

By JOHN PURROY MITCHEL, Mayor of New York

BECAUSE of the new spirit in American city government there is developing the country over a quickened demand for municipal freedom to enable the cities to deal with their local problems in the light of their local experience and the knowledge and understanding which can be developed alone within the cities themselves.

EFFICIENT CITY GOVERNMENT COMES ONLY WITH A RESPONSIBILITY FOR RESULTS. THAT RESPONSIBILITY SHOULD BE ON THE CITIES AND THE PEOPLE OF THE CITIES.

From my knowledge of the administration of the departments of the state and my knowledge of the administration of the departments of the national government I think I can say without fear of contradiction that the great departments of the city government have today more business principles applied in their administration than the departments of either state or nation, and, therefore, I SAY THAT THE CITIES TODAY FURNISH THE MOST CONSPICUOUS EXAMPLE OF THE SUCCESS OF DEMOCRATIC INSTITUTIONS.

Coast guards will carry rifles, and it is to be hoped that they'll manage to "sharp shoot" the idiots who rock the boat.

This season it has been almost impossible not to keep tabs on the "hot, hotter, hottest" weather.

There's a light crop this year of American landlubber boasts about proving a "good sailor."

IN KANSAS.
The wealth of Ormus

By the enormous
Crop is skinned
Of corn in pansas
Now all binned.

The sunburnt tiller
Of the soil
Now counts his siller,
Toll of toil;
The greenbacks make a
Ten-inch coil.

Each lusty voter
On the nail
Buys now a motor

Berthollet and Robespierre.
It is said that the celebrated savant Berthollet in the most dangerous times of the republic sustained his fearless love of truth. Some days prior to the ninth Thermidor a sandy deposit was found in a barrel of brandy intended for the army. The contractors, suspected of poisoning, were immediately arrested, and the scaffold was already prepared. Berthollet, however, examined the brandy and reported it free from all adulteration.

"You dare maintain," said Robespierre to him, "that that brandy does not contain poison?"

As his reply Berthollet drank off a glass, saying, "I never drank so much before."

"You have plenty of courage!" exclaimed Robespierre.

"I had more when I signed my report," replied the chemist, and here the matter terminated.

Seventh Century Needlework.
Before the end of the seventh century needlework was carried to great perfection in convents, where it was used for the establishment of the church and the decoration of priestly robes. Artists did not think it beneath their dignity to trace the patterns used for embroidery in their natural colors. A certain religious lady, wishing to embroider a sacerdotal vestment, asked no less a personage than St. Dunstan, then a young man, but already noted for his artistic skill and taste, to draw the flowers and figures, which she afterward worked in gold thread.—Exchange.

More and more chances of doing things are coming to women, just to show what they can do.

LURING WILD GEESE.

Live Decoys Are Often Used and Made to Play the Traitor.

American wild geese each spring migrate from waters of the southern states to the shores of the Arctic in northern Canada. The two great common varieties of the bird are the honkers and the wavy, or white, goose.

Both of these are extensively hunted. Covering, as they do, about 5,000 miles on their annual migration, these birds rest at various places en route and are thus shot by sportsmen almost across the length of the continent. The birds have a peculiar trait of always leaving one of their number on look-out while the rest feed.

To aid in the shooting of wild geese live wild ones, captured young and raised in captivity, are often placed in feeding grounds in likely territory on the line of flight of the migrating flocks. These decoys are terrible traitors and by their calling often bring the flying ones within shooting distance of the sportsmen, who lie in hidden pits near at hand.

Painted decoys, shaped like geese and made of steel, are also used by the hunters. In the latter case the men, from their hiding place in the pits, call the birds by using a goose call, a metal instrument like a flute, which mimics the sound of the goose with remarkable realism.—Philadelphia North American.

WASHINGTON TO OBSERVE COMMUNITY DAY, OCT. 3

Mayor Coffey Issues a Proclamation Following Receipt of Communication From President Ben. R. Vardaman, of the National Community Betterment Association.

In response to an appeal issued by Ben R. Vardaman, president of the National Community Betterment Association, with headquarters in Des Moines, Iowa, that Washington C. H. join with other cities of the United States in observing Sunday, October 3, as "Community Day," Mayor Coffey has issued the following proclamation:

Whereas, all good citizens are interested in the welfare of their town, community, state and nation, and:

Whereas, the upbuilding of the resources of the local community, its business, society, churches and schools tends to bring about conditions that in turn produce the very highest type of citizenship, and:

Whereas, there should be no town or community in the world better for our own people than Washington C. H., because every man, woman and child is a part of the community, and it in turn is a part of them and becomes just what they make it, and:

Whereas, every citizen has an individual responsibility, as well as an opportunity, in this community, and:

Whereas, The National Community Betterment Association has designated Sunday, October Third, 1915, as "Community Betterment Day" to be observed throughout the nation. And all good citizens, ministers, professional men, farmers, laboring men, and all others, both individually and through their various societies and associations, are uniting in other cities, towns and communities throughout the country on this day to promote community welfare.

Therefore, I urge our people to unite in making this day, Sunday, October Third, 1915, a memorable day in our home community. On this day give thought to the good things about you—say a good word for your community—go to church—shake hands with your neighbor—greet the stranger—unfurl the flag.

Signed
CHARLES F. COFFEY,
Mayor.

The Community Betterment idea has been taken hold of with enthusiasm all over the country.

\$419 AND WATCH ATTACHED BY STEELE

Robert S. Steele, of this city, through Attorney P. E. Dempsey has filed action in the common pleas court of Franklin County for the attachment of \$419 and a watch removed from the five men who were arrested a short time ago for flim flammings him out of \$710 on fake horse races.

The suit for recovery of the money was filed against W. Z. Leonard and Arthur Wheelless, who are still in the Columbus city prison. Wm. C. Woodward and Richard Golden, both of Cleveland, were released on habeas corpus proceedings after they had established their innocence.

Indications are that Steele will secure the return of the bulk of the amount he claims to have lost.

FORMER POLICE CHIEF IS DEAD

Former Chief of Police of this city Joseph F. Kerrigan, aged 57 years, died at his home in Sidney, Ohio, at 4:30 o'clock Wednesday morning, after a lingering illness of many weeks.

Mr. Kerrigan had been suffering from lung trouble which terminated in pneumonia, and after lingering for several weeks, and gradually losing strength, death relieved him of his sufferings just as the sun broke over the horizon Wednesday morning.

The deceased leaves a widow and two children, Terrence and Mary Agnes. Two sisters, Misses Agnes, and Ella, of this city, left for Sidney soon after news of his death was received here.

Mr. Kerrigan was born near Cleveland, Ohio, and at the age of two years moved with his parents to New Holland, where he grew to manhood. At one time he was engaged in the grocery business in Circleville, later taking up railroad work, and for more than fifteen years was employed by the Pennsylvania and B. & O. railroads.

He moved to this city in 1887 and in 1898 was appointed to the police force under Mayor Dahl. In February, 1907 he was made Chief of the Police under Mayor George F. Robinson and held that position for several years.

Soon after he quit the police force in this city he moved to Sidney where he has been engaged in business.

Funeral services will be held in Sidney, Saturday morning, and interment will be made in the cemetery at that place.

FUNERAL SERVICES OF JOHN M'COY

The funeral services of Mr. John McCoy, held Tuesday afternoon at the residence on the Waterloo pike, were very largely attended, a wide family connection being extensively represented as well as family friends from all over the county.

Rev. Born, of the West Holland circuit, conducted the services, supplementing the memoir with appropriate remarks.

Miss Jesse Leavell, of Bloomingburg, sang two hymns beautifully. Many flowers, both designs and cut flowers, surrounded the casket.

A long line of autos and carriages accompanied the family to the Washington cemetery for the interment.

The pallbearers were the four brothers, Messrs Elias McCoy, Mart L. McCoy, F. M. McCoy, of this city, Mr. James McCoy, of Detroit, Mich., Mr. J. A. Melvin, a brother-in-law, Mr. Al McCoy.

CITY VIRTUALLY FREE OF TYPHOID

Notwithstanding the wet season, Washington so far has been remarkably free from contagious disease during the summer, and Health Officer Byron reports that no cases of typhoid fever have come to his attention for a long while, and so far as known no other serious contagious disease usually appearing in the summer, are within the city limits at present.

The absence of typhoid, diphtheria and kindred contagious diseases reflects no little credit upon the city Board of Health, and particularly upon Health Officer Byron, who has devoted much time to his duties while in office.

HOW TO MAKE ONE DOLLAR DO THE WORK OF THREE

City and Education Board Asked \$133,000 for Next Year's Expenses, But Only \$57,800 Will Be Available With Tax Increase of .3 of a Mill—Reduction of \$61,000 Is Figured Out By Budget Commission Before Task Is Temporarily Abandoned.

How to stretch out \$57,800 to do the work of \$133,510 asked by the city and city school board, is the problem which confronted the Budget Commission when it met Tuesday afternoon to make up the 1915 budget.

The city wanted \$73,610 for the coming year and the school board asked for \$60,000 for the coming year, so the budget commission took up the work of devising some way to solve the problem of making one dollar do the work of nearly three, and as a result a great many big cuts were made in the amounts asked for and the tax rate in the city will, in all probability, be boosted from 12.7 mills to even 13 mills, or .3 of one mill, bringing in approximately \$57,800 for all purposes.

When the commission, which is composed of Prosecutor Maddox, Auditor Henkle and Treasurer Quinn completed its figuring, the result somewhat similar to the following figures.

Amount asked for by Board of Education, \$36,000 for tuition, \$12,000

for contingent expenses and \$12,000 for interest and sinking fund. Amount to be granted by the Budget Commission, tuition \$22,000, contingent \$4,000, interest and sinking fund \$12,000. Total \$38,000.

Amount desired by city outside of school purposes: General fund, \$4,000; Health, \$500; Safety, \$10,000; Service, \$35,910; interest and sinking, \$21,000; Library, \$2100; total \$73,510.

Amount which may be granted by Budget Commission: General, \$3,800; Health, \$500; Safety, \$7,000; Service, \$10,500; interest and sinking, \$11,000; Library, \$1,700; total \$34,500. The combined totals of the amount which the commission worked out, but which has not yet been thoroughly decided upon, reaches approximately \$72,500, or nearly \$15,000 more than the duplicate of \$8,573,200 brings in, and how the necessary amount will be obtained must be worked out later.

The increase of .3 mill brings in an additional \$2,500 over last year's amount.

As the law limits the amount to be raised, the city and board of education will, as usual, "make the best of the worst" of the proposition.

IS CANDIDATE FOR MAYORALTY

OPEN LETTER TO THE CITIZENS OF WASHINGTON C. H., OHIO.

By request of my many friends, I herewith announce myself as an independent candidate for the office of Mayor of this city, subject to the decision of the voters at the coming November Election.

Being a resident of this city for almost a half century, being constantly engaged in the manufacturing business, I feel deeply interested in the uplift of our moral as well as our business interest. As to my executive ability, no one knows, until tried.

I am proud of the legacy my parents left me which I hold dear to this day, namely, DO RIGHT. I shall stand as a stone wall in the defense of PURITY and RIGHTEOUS CITIZENSHIP.

Should I be chosen to be the candidate on an independent ticket, then my Golden Rule Platform will be enunciated, and will be made of such material that any minister of the gospel, layman or any citizen favoring law and order can stand on it without fear of humiliation. I shall enter the race boldly, with malice toward none and charity for all and with the dignified purpose of upholding the right as God gives me the light to see the right.

Respectfully yours for Good Civic Municipal Government.

UNION DELIVERY

In Social Circles

A most interesting meeting of the ladies' Presbyterian missionary society was held on Tuesday afternoon at the attractive home of Mrs. Jesse Persinger. Assisting hostesses for the day were Mesdames N. B. Hall, Sites, J. L. Persinger, Crooks, Fitzgerald, Madara, Noble, Probasco, Roberts, Hutchinson, L. C. Mallow, Carl Mallow, Post and Miss Belle Crooks.

Mrs. Austin Hopkins, president of the society, presented the subject of the work of the coming year in a forceful earnest way, the box work and literary work and conditions faced just now in the countries of special missionary interest.

The program with Mrs. Carl Meier as leader, was opened by a paper read by Mrs. L. L. Bowman—"A Little Maid Who Went into all the World"—a story which had its most beautiful lesson for missionary workers.

Miss Emma Jackson, with the subject of the Missionary Watch Tower, gave many most interesting facts from all over the world, proving the results of mission work, and closing with the definition "Missions Means the Mind of the Master Multiplied

by His Messengers." Miss Mary Baughn gave two beautiful solos on the piano and a social time was enjoyed after the meeting closed.

The following account of the marriage of Dr. D. R. McVay, Superintendent of the Sidney Schools, and formerly superintendent of the schools in this city, will be read with much interest by Mr. McVay's many Washington friends:

"Sidney, O., August 17.—Monday afternoon Miss Grace Fullington and Dr. H. R. McVay were quietly married at Milford Center by the Reverend Father George Hickey, and left immediately for Chicago, by way of the lakes, from there going on to Ottumwa, Iowa.

"The bride has been director of the gymnasium in the Sidney High school for the past year, and the groom is superintendent of the Sidney schools."—Dayton News.

Mrs. D. O. Beath, of the Robinson road, entertained at a delightful dinner Wednesday Mrs. Carrie B. Willis, Mrs. Robert Howat, Mrs. R. O. Young, Misses Minnie Light, Gertrude and Edith Gardner.

Dr. and Mrs. L. M. McFadden, daughters Doris and Anna Lee and son Robert are leaving for a few days' outing at Russell's Point.

Miss Mary Dunn of Columbus is the guest of Mrs. Frank Michaels for the week.

Mr. and Mrs. Frank Osborn of Milledgeville left Wednesday morning on an extensive western trip. They will visit principal places of interest enroute to the coast and attend the Panama-Pacific exposition.

Miss Mollie Foster has been the guest of her sister, Mrs. Belle Smith this week, enroute from a trip to Mackinac and the Soo, to Xenia, where she is teaching in the O. S. & S. O. Home. She leaves Thursday for Xenia.

Mrs. D. L. Jones and Mrs. Bliss Glenn, of Greenfield, are the guests of Mrs. Arthur Leland, for the Bridge party given by Mrs. Frank Michaels and Miss Regina McDonald this afternoon.

Hon. and Mrs. H. L. Hadley, daughter Mrs. Will Sprenger and daughters Elizabeth and Wilhelmina leave Thursday for an indefinite stay in the east. They will visit relatives in Sandwich Center and Whiteface, New Hampshire, where it is the custom to hold family reunions each summer, and also in Massachusetts.

Miss Dorothy Smith of Bainbridge is Miss Helen Harper's guest for the midsummer dance. Mr. Vivian Crawford of Woodstock, and Mr. Cahill of Chillicothe, will also be Miss Harper's guests for the dance.

Mrs. Philip Rothrock Jr., and daughter Phillisada, of New Orleans, La., who have been visiting at Mrs. Rothrock's home in Columbus while Mr. Rothrock is on a business trip to Texas, arrived Tuesday evening to visit Mr. and Mrs. Philip Rothrock.

Miss Katharine Kelley, of Xenia, is the guest of Miss Jean Howatt.

Mr. and Mrs. Frank Swormstedt, who have been guests the past week of Mr. and Mrs. Ralph Allen, left Wednesday for Greenfield where they will visit before returning to their home in Newport.

WILL PICK BOYS TO THE STATE FAIR

Saturday morning at ten o'clock at County School Superintendent O. S. Nelson's office, two Fayette county boys will be selected to attend the State Fair free of charge.

So far there are only two boys entered for the trip, and as each county is entitled to two lads, little rivalry is anticipated.

At the above mentioned hour and place those qualified as voters will decide which boys shall go to the fair.

RETAINING WALL IS LOOMING UP

The new concrete block retaining wall is looming up about the court house terrace on the north and west sides.

At the present time the wall is nearing completion from the corner by the jail to the steps west of the court house and will add greatly to the appearance of the court house lawn. At the corner of Market and Main streets the wall is curved gracefully. The concrete blocks will be capped with a concrete top.

Between the fountain corner and the west steps leading to the court house, the historic iron fence has been removed, and the retaining wall will be carried the full length.

Not only will the wall add to the beauty of the lawn, but will eliminate puddles of mud and water from the sidewalk.

FEW NATIVE BORN OBTAIN LICENSES

An examination of the marriage records in the Probate Judge's office discloses the fact that considerably more than half of the persons obtaining licenses are not natives of Ohio. In other words nearly two-thirds of the persons were born in counties other than Fayette.

In the last 25 licenses issued, eight of the men were born in Fayette and eleven of the women, or only nineteen out of the fifty contracting parties are natives of this county.

With very few exceptions the contracting parties who were not born in Fayette are natives of some of the southern Ohio counties, Ross, Adams, Pike and Highland being the leaders.

This indicates the great number of persons who, within the past 30 years, have moved to this county, principally for better agricultural opportunities.

SNEAK BURGLAR STILL AT WORK

The sneak thief and burglar who has been busy in that part of the city between Columbus avenue and Market street, was busy again Monday night, entering the home of Mrs. Sarah Patton on the corner of Columbus avenue and Forest street.

The burglar removed a screen at the Patton home, entered the residence through the window, and removed a pocketbook containing a small sum of money.

A few nights ago the fellow was seen removing a screen from a residence, but the window was locked down and he was unable to gain admittance.

It is the general belief that the burglar is a mere boy, and that he lives in the neighborhood above mentioned.

OFFICER QUARRELS AND IS SUSPENDED

Extra Policeman George Dahl doing traffic duty during the fair, was suspended by Chief of Police Moore Wednesday morning, following a personal quarrel in which Dahl is said to have struck Los Brown with his mace. The blow raised an ugly knot on Brown's forehead but did not seriously hurt him.

It seems there has been trouble between the two men for some time, Dahl declaring that Brown had been calling him offensive names. The men met on South Main street about 8:30 o'clock Wednesday morning and the fracas ensued.

The fact that Dahl was in uniform at the time cost him his commission.

STATE BOARD VIEWS NEW HOSPITAL SITE

The State Board of Charities with its inspectors and Dr. Patterson, of the State Anti-Tuberculosis Society, inspected the site of the new District Hospital, at Chillicothe, Tuesday afternoon, and it is understood pronounced the site a splendid one.

Approval of the site by the State Board was necessary before the commissioners could proceed.

Execution of Frank, Convicted of the Murder of Mary Phagan, the Outcome of Weeks of Deliberate Study and Planning—Prison Commissioners Exonerate Warden and Other Officials.

Atlanta, Ga., Aug. 18.—Despite the fact that Governor Harris instructed officials of Cobb county to exert every effort to apprehend the lynchers of Leo M. Frank, no state nor county rewards have yet been offered and no arrests have been made.

It developed that the death of Frank was the outcome of weeks of deliberate study and planning. It was executed with businesslike skill and precision. The living victim, fully conscious and aware of his impending fate, was transported more than 100 miles.

Frank was taken from the prison farm at Milledgeville after the prison authorities had been overpowered, thrown into an automobile and hauled over the county roads in a manner so orderly that even in Marietta no one knew of it until a voice, coming over the telephone to Deputy Sheriff Hicks at the break of dawn, said: "Leo Frank's hanging to a limb down here in the Frey gin neighborhood. Retribution!"

The hanging took place in a grove within a stone's throw of the hillside birthplace of Mary Phagan, Frank's alleged victim. Hurried to the village square, two miles distant, in an undertaker's dead wagon, the body was transferred to an automobile and

turned to Atlanta. It was embalmed after being witnessed by thousands of people, and later was carried to the depot and put on a train to Brooklyn, where burial will be held.

No violence other than strangulation was committed upon the body by the lynchers. Despite reports that it had been riddled by bullets, not a mark except upon the throat was visible when it was cut down. As it fell to the ground the foot of a frenzied onlooker was ground into the face, badly distorting the features and adding to the discoloration caused by blood congealing.

When it became known here following the lynching that Frank's widow was at the point of death from grief and horror, Atlanta expressed a revulsion of feeling. The very men who were bitterest in their denunciation of ex-Governor Slaton for saving Frank from legal execution a few weeks ago were in many cases crying for vengeance on the lynchers, and more particularly on the prison farm officials who permitted their helpless and wounded ward to be dragged from their very presence to his death.

The lynchers' brutality in the treatment of their victim, a man just recovering from a wound which all but cost him his life, and the collapse of the widow caused a feeling of pity and indignant astonishment to spread in the community which so recently was demanding the same man's life.

Governor Harris said: "I am greatly shocked and aggrieved and I do not believe the people of Georgia will at all approve of this action. I am sure that it will hurt Georgia greatly everywhere and I am extremely sorry that it occurred. It can be taken for granted that I will use my every power to see to it that members of this mob receive fitting punishment for their crime."

"Ex-Governor Slaton said: "It is a consummate outrage. Every man engaged in the lynching should be hanged, for he is an assassin."

**ANTICIPATE
CLEAN SWEEP**

Atlanta, Ga., Aug. 18.—As a sequel of the lynching of Leo Frank it is stated that there will be a clean sweep of the Milledgeville prison officials. The most charitable opinion expressed was that only the most extraordinary cowardice or indifference could have permitted such an affair at an institution under armed guard of 25 or 30 men intrenched in prison buildings strong enough to bare with-

stood a siege except with artillery. There was a widespread sentiment that the investigation which cleared the officials of responsibility for conditions which made the recent stabbing of Frank possible was too much in the nature of a whitewash. The lynching, following it, was generally declared to have passed the limits of endurance.

**PRISON HEADS
BLAMELESS**

Milledgeville, Ga., Aug. 18.—Superintendent J. M. Burke and Warden James E. Smith of the state prison farm are held blameless by the board of prison commissioners for the seizure of Leo M. Frank by the mob. R. E. Davison, Thomas E. Patterson and L. Rainey, constituting the prison board, happened to be at the pen here when Frank was taken from the building. All three of them speak in regrettable terms over the occurrence they witnessed in part. They were spending the night at the residence of Superintendent Burke and had just gone into their rooms when the alarm was sounded that a mob had come for Frank. Before they could get to the prison grounds the mob was beginning to move off. They declare no blame attached to the prison officials.

**TO BURY FRANK IN
BROOKLYN CEMETERY**

New York, Aug. 18.—Mr. and Mrs. Rudolph Frank, parents of Leo Frank, were notified of the lynching of their son through Frank's lawyers in Atlanta. "Thank God Leo is dead and through with his troubles," Frank's mother said. "If he had lived his life would have been a torture to him and they might finally have killed him in a worse way." Leo Frank's body will be buried in the Frank family plot in a Jewish cemetery in Brooklyn.

U. S. SHIP SUNK

Philadelphia, Aug. 18.—Reports brought over on the American liner Dominion, which arrived from Liverpool, were to the effect that the American liner Merion, requisitioned by the British admiralty as a troop ship, had been sunk by the fire of the Turkish batteries at the Dardanelles.

**EIGHT MEN
EXECUTED****Officials Charged With Treachery
Are Shot to Death.**

El Paso, Tex., Aug. 18.—News received from Chihuahua City confirmed reports relative to the execution of a large number of men by General Villa; that city following his return there from his conference in El Paso and Juarez with General Hugh L. Scott. The victims were prominent men in Mexico prior to the Villa rule or since he came into power in Chihuahua. The list follows:

Guillermo Terrazas, grandson of General Luis Terrazas; Felipe Gutierrez, governor of Chihuahua during the Croco revolution; Luis Gardea, brother of Colonel Gardea; Aureliano Gonzales, governor of Chihuahua during Villa's first success; Sylvester Terrazas, former secretary of Chihuahua state; Enrique Garcia, secretary to the mayor of Chihuahua City; Perchez Enriquez, formerly Villa purchasing agent on the border, and General Del Poso, a brigade commander.

The Villa officials executed were shot, it is stated, on the charge of treachery, either because they were conniving to join the Carranza element or the peace movement.

General Rios Delya, purchasing agent for Villa on the border, was arrested in Juarez and sent to Chihuahua City.

Partially confirmed reports received here stated that General Manuel Chao, commander of Villa forces at Parral, is preparing to evacuate that city and join the Carranza forces in Durango.

**SEC'Y DANIELS
ON THE LYNCHING**

Washington, Aug. 18.—Secretary of the Navy Daniels issued a formal statement denouncing the lynching of Leo M. Frank as the worst blot on the name of Georgia, declaring that it would be more sincerely condemned in the south than in any other part of the republic.

AVIATOR KILLED

Erie, Pa., Aug. 18.—Donald Gregor, twenty-four, of Ann Arbor, Mich., an aviator on board the United States naval militia ship Essex of Toledo, was fatally injured when he fell 300 feet during a flight. He was picked up by officers of the naval militia fleet, now maneuvering off this port, and hurried to a hospital, where he later died.

ITALIANS ATTACK

Rome, Aug. 18.—Italian troops with in the last forty-eight hours have launched a concerted attack upon the Austrian fortress of Tolmino, situated on the upper Isonzo, and of the same strength as Goritz. Under cover of the heavy guns infantry detachments made some progress toward the forts, and in the subsequent fighting took 564 prisoners, including 17 officers.

GEN. BLACK DIES

Chicago, Aug. 18.—General John C. Black, civil war veteran, former United States commissioner of patents and a member of the United States civil service commission, died suddenly in his room at the Palmer House. He was commander in chief of the G. A. R. in 1903.

BURNED TO DEATH

Cleveland, Aug. 18.—Mrs. Alice Malloy and her two children, Alice, three, and Francis, one, were fatally burned in a fire which destroyed their home.

**ROUMANIA MUST
DECLARE HERSELF**

New York, Aug. 18.—The government of Roumania wants to buy munitions of war in this country, but it can not place its orders for ammunition until it announces just how it intends to swing in the Balkan situation. If it swings with Germany its orders will not be filled by companies that are supplying the allies. If it joins the allies the orders can be easily placed.

KILLED BY HUSBAND

Logan, O., Aug. 18.—Val Reuter, thirty-six, stationary engineer, was shot and killed at Grendale, O., ten miles east of Logan, Hocking county, by Alf Deibel, thirty-five, when the latter returned unexpectedly to his home and found Reuter there. Deibel gave himself up.

He Removed the
Danger Signal

"I suffered a long time with
a very weak back," writes Fred
Smith, 225 Main St., Green Bay, Wis.
"A few boxes of Foley Kidney Pills
completely relieved me of all soreness
and pain in the back, and now I am
as strong and well as ever."
One cannot help becoming nervous
and feeling tired and worn out when
the kidneys fail to filter and throw
out of the system the poisonous waste
matter that causes kidney troubles
and bladder ailments.
Backache is one of Nature's danger
signals that the kidneys are clogged
up and inactive. It is often followed
by rheumatism, annoying bladder or
urinary disorders, puffly swellings
under the eyes, swollen ankles and
painful joints.
Foley Kidney Pills get right at the
source of trouble. They invigorate
the kidneys to healthy action and
when the kidneys properly perform
their functions the poisonous waste
matter is eliminated from the system.

OHIO NEWSLETS

For President of Elks.

Cedar Point, O., Aug. 18.—Indorse-
ment by the Cincinnati Elks delegates
of the candidacy of E. G. Slough of
Mansfield for president of the Ohio
Elks' association was the feature of
the three-cornered fight for the honor.
His chief opponent, Ed Strong of
Cleveland, has the backing of the
Cleveland and other northern Ohio
delegations. The third candidate is
John Nestor of Elyria. The election
takes place Friday.

WON'T SIGN

New York, Aug. 18.—Harris Wein-
stock, a member of the United States
commission on industrial relations, de-
clared the majority of the commission
had declined to sign the report sub-
mitted by Basil M. Manley, director,
because they felt it was "only a partial
report of the findings and unfair."
"We had hoped to sign and submit
one report to congress," said Mr.
Weinstock, "but when we read the
Manley report, which was signed by
Chairman Walska and the three labor
members of the commission, we found
another report was necessary. This
was signed by five of the nine mem-
bers. In addition to the majority re-
port the three employers on the com-
mission drew up an addenda and at-
tached it to the general report."
"In this addenda it is made plain
that the hearings of the commission
showed that neither capital nor labor
can come into court with clean hands;
that both are guilty of sins of com-
mission and omission, and that each
is responsible for a full share of the
existing industrial strife and unrest."

UP TO THE
OPERATORS

Columbus, Aug. 18.—The state
utilities commission will not make its
own investigation of freight rates on
Ohio coal by means of its own ex-
perts. This was stated by Chairman
Eecener W. Waterman during re-
sumption of the rate investigation
bearing on complaint of the coal min-
ers' organization.

Judge George B. Okey, attorney for
the miners, said the complaint had
been filed on the assurance that coal
operators would produce the data af-
fecting rates from their coal districts,
but so far, with the exception of the
Sunday Creek Coal company, they had
not done so. He suggested the com-
mission fix a date when operators
should file an intervening petition, if
they intended to come into the case.

MOVIE CENSOR
LAW HELD SAFE

Columbus, Aug. 18.—Because a re-
ferendum has to be started within nine-
ty days from the time a measure is
to become law, Attorney General Turner
gave an opinion that the movie
censor act can not be reached in any
such manner. The only thing that is
possible is to reach the so called Be-
saw amendment passed at the last
session. Even if a referendum should
prevail against the amendment, Mr.
Turner finds that it could not in any
way affect the original law.

THOUSANDS FLOCK TO FAYETTE'S BIG FAIR

Doubtful Weather No Hindrance to Eager Amusement Seekers.

RACES AND HORSE SHOW ARE FEATURES

Splendid Exhibits in All Departments Combine to Make This Year's Fair One of the Greatest in History—Midway Is Highly Popular.

While a threatening sky and a chill temperature had its effect on the usual Wednesday-of-the-fair procession to the Fayette county fair grounds early today, a few encouraging winks from Old Sol later in the morning seemed to dispatch the fears of the timorous and by noon the customary stream of humanity, as vigorous, if not more so, as in seasons past, begun pouring out the streets in the direction of Fayette's big annual exhibit.

The railroads began unloading their unusually large complement of visitors early and continued throughout the day, while scores of automobiles, from all directions, virtually flowed into the city and kept traffic officers continually vigilant.

At the fairground, booths, exhibit halls and stables, all bustling with the excitement of anticipation, gave promise of one of the greatest fairs in the history of Fayette county.

Horse Show Classes Wednesday. Within a few feet of where rest those equine heroes of other days, Bobby Burns and Major Mallow, another show held Wednesday morning demonstrated that Fayette county's prestige is still high in the horse kingdom and that her breeders are still masters of the art of producing splendid horses.

The show was staged in the quarter-stretch, and while not as large in numbers as the Belgians, which show tomorrow, still the Shires and Percherons which made the program made a fine show.

In the Percherons, James Bros. of Jeffersonville, carried off the most honors—six firsts and two seconds, along with the premier honor, the championship cup offered by Charles Allen for the best Percheron stallion shown. They won this with Lagardere, a four-year-old that will head their exhibit at Columbus and Detroit. The reserve was Knight, owned by Homer Hutson, of Yatesville. This horse, a two year old, stood first in his class.

In the younger classes, the star was Ornate, who will carry the James colors in the Eastern Percheron Futurity at Columbus week after next. As indicating his scale, it may be mentioned that he was publicly weighed today, and scaled 1460 pounds. He is but a few weeks older than one year. In the mare division, Veda and Chopine, imported mares that have been winners at State fairs, were first in their classes.

PURE AND POTENT OLIVE OIL

Only one kind of Olive Oil should be used and that is the kind that you can be absolutely sure is pure and potent. Such an oil is equally good both as a condiment, salad dressing or as a food. It is the kind of oil your doctor wishes you to take when he recommends Olive Oil for you. It's the kind of oil you will be pleased to serve your guests.

Our Olive Oil will satisfy all your requirements. You'll be absolutely satisfied with it.

UNION STATION PLANS EXPECTED

Plans and specifications for the B. & O. railroad company's new union passenger station are expected to reach this city either this week or next, and a definite idea can then be gleaned as to the size of the station and how it will appear when finished.

The plans and specifications are to be in the hands of Mayor Coffey within 30 days from the time Vice President Thompson was here, and about the same time a set of plans and specifications will be placed before the Dutch Treat Club of this city.

Meanwhile plans for track changes and other work are being worked out by the B. & O. engineers.

PAY VISIT TO PEACH ORCHARDS

Mr. Wm. M. Campbell and Mr. Albert F. Kyte, in charge of the Dahl-Millikan fruit department, are quite enthusiastic over a visit to the Pleasant Ridge peach orchard, back of Wakefield, in the mountains of Pike county.

The orchard contains over 11,000 trees of beautiful Elbertas and other varieties of peaches.

Mr. Campbell says that during his recent trip to California he saw nothing more beautiful than this fruit laden orchard against its background of green mountain-side.

CANNING FACTORIES SUFFER IN FLOOD

Mr. Fred Dunton, of Indianapolis, Ind., special representative of Graft & Johnson, the largest canning firm in the United States, was the guest of Mr. Wm. M. Campbell, general manager of the Dahl-Millikan Grocery Company, this week and accompanied him on a visit of inspection to the canning factories of Circleville and Chillicothe and through those of this city.

In the flooded districts of the Scioto valley two thousand acres of corn was found under water and 100,000 cases of corn had been washed away from factories located there.
